B&Q

Kitchens - Buying Guide

**NEW
LOWER
PRICE**

**Over 1000 price reductions
on Cooke & Lewis kitchens
cabinets and doors**

Friday 1st August – Thursday 11th September

Welcome...

This Kitchen Buying Guide works in conjunction with our B&Q Kitchen Ideas Book.

The Buying Guide gives you precise details about every kitchen product – choice, description, specification, price and availability. Combined with the inspirational Ideas Book you'll have everything you need to make the perfect choice for your kitchen.

If you do need any additional help, our trained in-store advisors will be happy to give you further advice.

Contents

   **pages 12 – 24**

  **pages 25 – 28**

  **pages 29 – 45**

Handles **pages 46 – 48**
Worktops **pages 49 – 60**
Splashbacks **pages 61 – 63**
Sinks **pages 64 – 76**
Taps **pages 77 – 84**
Storage **pages 85 – 92**
Lighting **pages 93 – 94**
Appliances **pages 95 – 149**

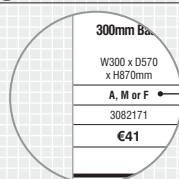

How to select your kitchen

Step 1 Pick your cabinets, drawer boxes and appliance housing

Step 2 Pick your open cabinets and end panels

Step 3 Pick your doors, drawer fronts, fixed frame doors, colour matched accessories and hinges

Each door and drawer front is labelled alphabetically to help you work out which you will need

Cabinet tables indicate your door and drawer front options

Step 4 Pick your finishing accessories, end panels, cornices and plinths

Step 5 Pick your sink, taps, handles, worktops and appliances

Availability and delivery

Take home today ranges

Ranges featuring this symbol are available to take away (dependent on stock). Please check availability with your local store. Each store stocks a selection from our take away range. If an item is not in stock your local store will be able to order it for you.

Home delivery ranges

Ranges featuring this symbol can be delivered direct to your home. In addition to the IT take home today ranges we offer an extended collection of IT kitchens not found in store. Cooke & Lewis kitchens can only be ordered in-store for home delivery.

Always lowering the cost

Our price promise

If you find any products even 1c cheaper somewhere else within the Republic of Ireland, we'll refund the difference and give you an extra 10% off the lower price. Take a look at page 118 for details.

Lowering costs, never compromising on quality

This is at the heart of what we stand for... At B&Q we're able to offer you exceptional quality products and ranges at low prices. We offer fair and honest pricing that our customers can trust and unlike other companies, we'll never artificially inflate prices only to slash them later in the year to appear as a great money saving deal. This is simply dishonest and unfair on you.

10 year product guarantee

We're unlike other companies who's guarantees fall apart in the small print!

Built to last, for your peace of mind

We offer a 10 year guarantee on all of our kitchens and bathrooms. Our product teams take a great deal of time and care to research and source the very best ranges for us to put our B&Q name to. It's crucial that we bring you excellent quality and reliable products. We sell hundreds of thousands of kitchens, bedrooms and bathrooms to go into homes across the UK and Ireland every year and have to make sure that what you buy from us is fit for purpose and of the highest possible quality.

We only choose the leading manufacturers who are best in class. They use high grade materials and carry out rigorous testing to British and European standards so we can offer them with confidence and with long guarantees.

Helping you with your project

Your step-by-step guide of what to expect...

The whole idea of the project may seem daunting but we're here to make it easy, and most importantly, enjoyable. We promise to do everything we can to ensure your project runs smoothly at every stage of the journey.

1. Inspiration

So what is it you're looking to do? Repair, refresh, maintain or get something totally new? We can inspire you with great ideas that suit you, your budget and your lifestyle. You may even need help with financing and installation which we will discuss with you.

2. Planning

Once inspired, we'll need you to get a few simple room measurements to help us move forward with your project. It's really simple and we'll give you guidance on how to measure, plan and make the best use of your space.

4. Create the look

You will now have a clear vision of your kitchen, bedroom or bathroom. You may want to look at how you can personalise your room and make it truly yours. Whether that's lighting, flooring, tiling, colour schemes or accessories, we have everything you'll need to create your desired look. We can even help you tile, lay flooring, paint and more so you don't have to.

3. Designing

With our totally free design consultation, we will bring your ideas to life with our leading 3D design software. We'll also need to look at heating, plumbing and electrics to see if they are affected by the project.

5. Budgeting

Following our survey, we will know exactly how much the project will cost you. But rest assured, our prices won't be beaten, and that's a promise.

6. Installing

Your kitchen, bedroom or bathroom is ready to take its place in your home. Whether you've chosen to have it fully installed by our market leading installation service or just to have items delivered through our flexible delivery options, we'll make things easy and provide helpful advice at every stage. We can even help you with great tips to install yourself, either the full project or parts of it.

5 year installation guarantee

Professionally fitted

Deciding which kitchen, bedroom or bathroom is perfect for you is one thing, but we know that not everyone has the time or experience to install it themselves. We can take care of your project from installation to plumbing, electrics, gas works, flooring, plastering, tiling and joinery. With over 15 years of domestic installation experience, over 1/2 million completed projects and international accreditation, you're in safe hands, we're the most experienced national retailer in the UK and Ireland.

All projects are managed locally so you'll always have somebody close by to contact if you need any help or advice. Once the work has been completed, and we've checked that you're happy, you will receive a 5 year workmanship guarantee; **the best of any national retailer in the UK and Ireland today.**

Kitchens, bedrooms & bathrooms

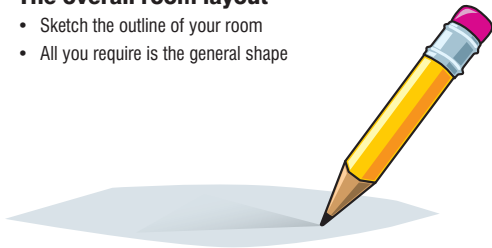

You're in safe hands

Helpful 'How to Measure' tips and advice for your kitchen

1

The overall room layout

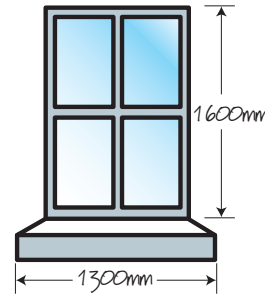

- Sketch the outline of your room
- All you require is the general shape

2

Indicate openings – windows, doors, archways and hatched

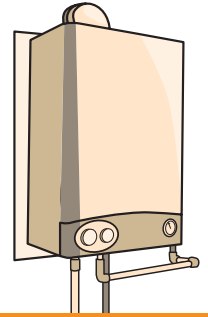

- Mark the location of windows, doors, archways, hatches
- Include the opening swing of doors

3

Indicate any obstacles that can't be moved and include main services, electric, water and gas

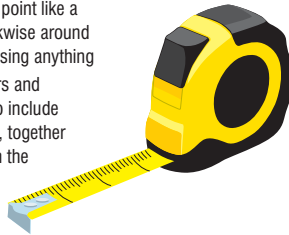

- Indicate items that must be planned around
- Your boiler, meters, radiators, soil stack, stop cock, alcoves, etc
- Finally add main services, electric, water and gas

4

Measure between each fixed point – doors, walls and windows

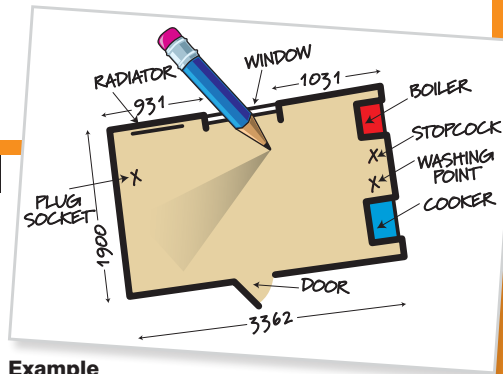

- Pick a logical starting point like a corner and work clockwise around the room to avoid missing anything
- When measuring doors and windows remember to include frames and architrave, together with the distance from the floor to the underside of the windows

5

Measure obstacles in the room

- Your soil stack and boiler, radiators, etc
- Remember to include the width, depth and height of each item
- Show the obstacle heights and their distance from the floor in mm e.g. H=700mm F=1200mm

6

Measure main services, electric, water and gas

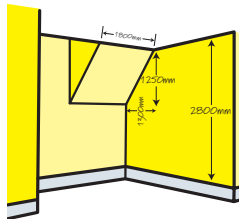

- Measure from the nearest fixed point on your diagram to the centre line of each service
- Include sockets, phone, gas, water and TV points
- When measuring larger service items such as consumer units, gas meters and radiators, remember to include their width and height from the floor

7

Measure ceiling heights

- Take two or three measurements to ensure the ceiling is consistent and mark the height in the middle of your survey plan
- If there are obstacles on the ceiling such as a stair slope or landing, mark this on your sketch

8

Example

Your sketch should look something like the example shown above. Now you're ready to start stage two of your project – Planning at B&Q

Helpful tips

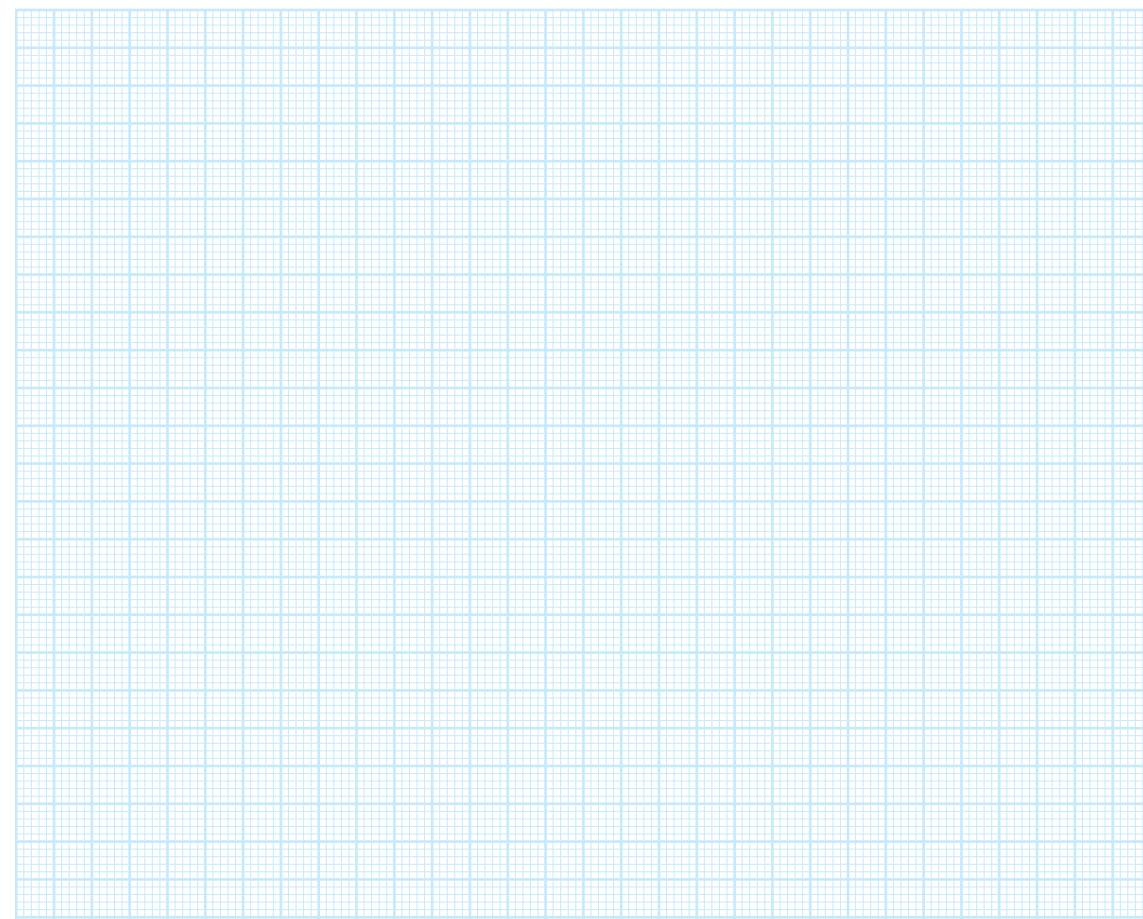

- Remember walls aren't always perfectly square, so measure them at the top, middle and bottom.
- Bear in mind that switches, sockets and most radiators can be moved – you can discuss this with your B&Q designer.
- If you're keeping any freestanding appliances or furniture like tables and chairs, include their dimensions for your design consultation.
- Take photos of any particular feature or bits you're unsure about.
- Include for discussion any structural alterations you may want to make like moving doors.
- Once you've finished, double check your measurements for accuracy as this will make it easier to create your new project.

Finishing touches

What you'll need to add the finishing touches to your dream kitchen

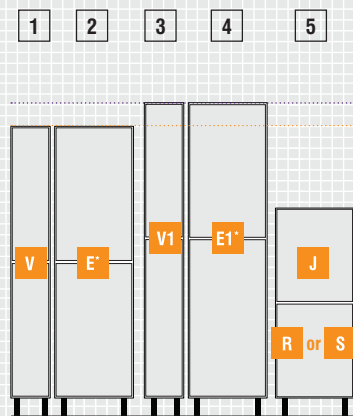

top tip...

This guide will help you choose the door packs that you'll need to complete larder cabinets and appliance housings.

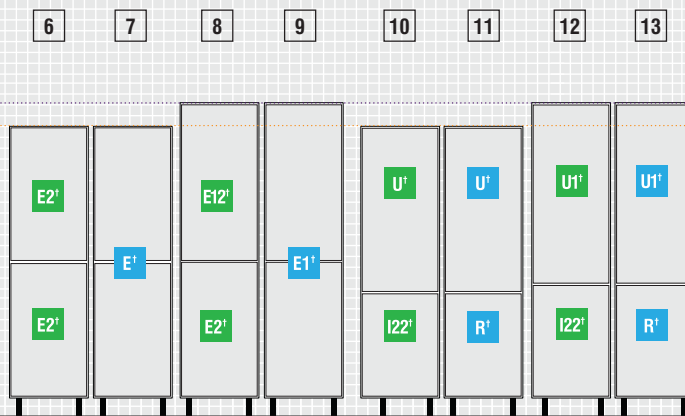

Key

E* These refer to the door packs you'll need to complete each unit.

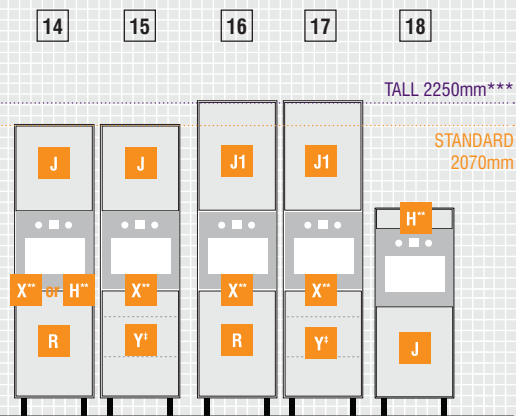

Larder cabinets

Fridge freezer cabinets and pull-out storage

Single oven units

For larder cabinets

- 1** For a 300mm wide standard larder cabinet you need door pack V. (Pack V contains 2 doors)
- 2** For a 600mm wide standard larder cabinet you need door pack E*. (Pack E contains 2 doors)
- 3** For a 300mm wide tall larder cabinet you need door pack V1. (Pack V1 contains 2 doors)
- 4** For a 600mm wide tall larder cabinet you need door pack E1*. (Pack E1 contains 2 doors)
- 5** For a 600mm wide mid-height larder cabinet you need door pack R or S and door pack J.

Larder cabinets with framed doors do not allow unrestricted full height access and must be fitted with a central shelf.

For integrated 50/50 fridge freezer cabinets and pull-out storage

- 6** For a standard height 50/50 cabinet in **framed** kitchens you need door pack E2* x 2.
- 7** For a standard height 50/50 cabinet in **non-framed** kitchens you need door pack E1*. (Pack E contains 2 doors)
- 8** For a tall height 50/50 cabinet in **framed** kitchens you need door pack E12* and door pack E2*.
- 9** For a tall height 50/50 cabinet in **non-framed** kitchens you need door pack E1*. (Pack E1 contains 2 doors)

For integrated 60/40 and 70/30 fridge freezer cabinets and pull-out storage

- 10** For a standard height 60/40 or 70/30^{††} cabinet in **framed** kitchens you need door pack U[†] and door pack I22[†].
- 11** For a standard height 60/40 or 70/30^{††} cabinet in **non-framed** kitchens you need door pack U[†] and door pack R[†].
- 12** For a tall height 60/40 or 70/30^{††} cabinet in **framed** kitchens you need door pack U1[†] and door pack I22[†].
- 13** For a tall height 60/40 or 70/30^{††} cabinet in **non-framed** kitchens you need door pack U1[†] and door pack R[†].

For single oven housing units

- 14** For a standard height 600mm wide single oven housing unit you need door pack J, door pack R and pack X** (Cooke & Lewis only) or pack H**.
- 15** Cooke & Lewis only – for a standard height 600mm wide single oven housing unit with pan drawers you need door pack J, door pack Y[‡] and pack X**.
- 16** For a tall height 600mm wide single oven housing unit you need door pack J1, door pack R and oven housing filler pack X**.
- 17** For a tall height 600mm wide single oven housing unit you need door pack J1, oven housing filler pack X** and door pack Y[‡] for a drawer cabinet.
- 18** For a 600mm wide mid-height unit for a single oven you need door pack H** and door pack J.

* If buying a pull-out larder frame product for this cabinet see illustrations 6 – 13 for door choices.

† Please note there are different options of fridge/freezer unit door combinations – this is dependent on your chosen kitchen style.

†† For a 70/30 fridge freezer you need to raise the appliance by using one of the shelves supplied.

‡ Please note there are different options of drawer boxes for drawer packs Y and BB this is dependent on your chosen kitchen style.

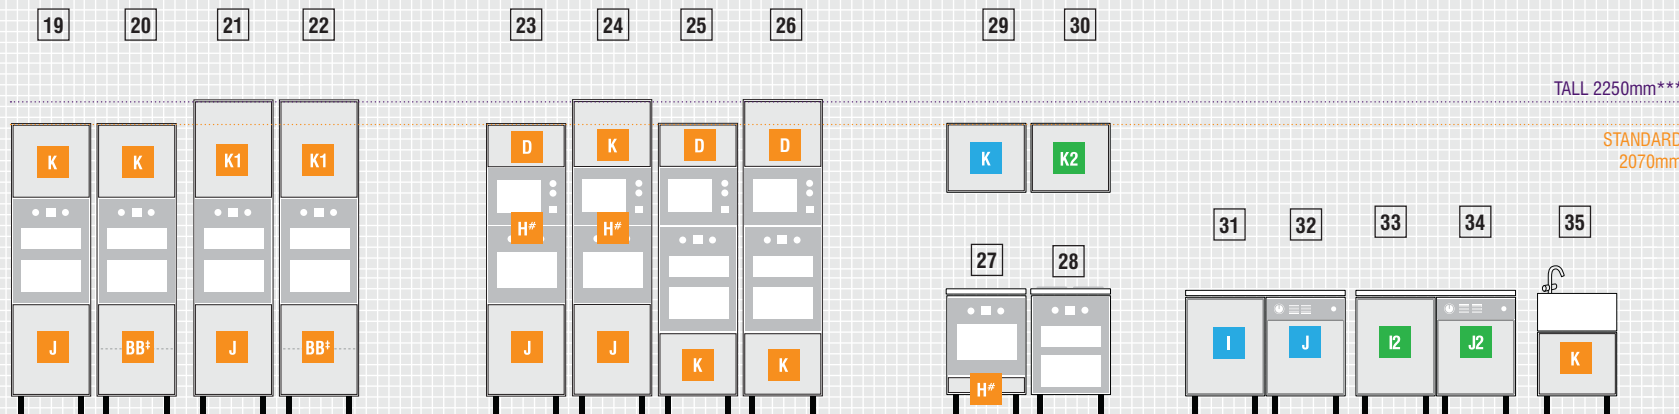

** Pack X or H oven housing filler panel can be added to accommodate various single oven heights.

*** Tall sizes are only available for the Cooke & Lewis ranges.

Double oven units

Oven and microwave units

For built-under cabinets and integrated appliances

For double oven housing units

- 19** For a standard height 600mm wide double oven housing unit you need door pack K and door pack J.
- 20** Cooke & Lewis only – for a standard height 600mm wide double oven housing with pan drawers you need door pack K and door pack BB[†].
- 21** For a tall height 600mm wide double oven housing unit you need door pack K1 and door pack J.
- 22** For a tall height 600mm wide double oven housing unit you need door pack K1 and door pack BB[†] for a drawer cabinet.

For single oven and microwave housing units

- 23** For a standard height 600mm wide single oven and microwave housing unit you need door pack D and door pack J. (Don't forget that in Cooke & Lewis you can substitute pack J with pack BB to create a 2 drawer cabinet if preferred).
- 24** For a tall height 600mm wide single oven and microwave housing unit you need door pack K and door pack J. (Don't forget that in Cooke & Lewis you can substitute pack J with pack BB to create a 2 drawer cabinet if preferred).

For double oven and microwave housing units

- 25** For a standard height 600mm wide built-under double oven and microwave housing unit you need to select your door packs based on the size of the microwave being used. This example (shown above) uses a 450mm height microwave with door pack D and door pack K.
- 26** For a tall height 600mm wide built-under double oven and microwave housing unit you need to select your door packs based on the size of the microwave being used. This example (shown above) uses a 450mm height microwave with 2 x door pack K.

For built-under cabinets

- 27** For a 600mm wide built-under single oven you may need door pack H[#] to accommodate variations in the height of your appliance.
- 28** No doors are required for a 600mm wide built-under double oven.
- 29** For a 600mm wide extractor hood unit with **non-framed** doors you need door pack K.
- 30** For a 600mm wide extractor hood unit with **framed** doors you need door pack K2.

For integrated appliances (including fridges, freezers, washing machines and tumble dryers)

- 31** For a 600mm wide integrated dishwasher cabinet in **non-framed** kitchens you need door pack I.
- 32** For a 600mm wide semi-integrated dishwasher in **non-framed** kitchens you need door pack J.
- 33** For a 600mm wide integrated dishwasher cabinet in **framed** kitchens you need door pack I2.
- 34** For a 600mm wide semi-integrated dishwasher in **framed** kitchens you need door pack J2.

For Belfast sinks

- 35** For a 600mm wide Belfast sink unit you need door pack K.

‡ Please note there are different options of drawer boxes for drawer packs Y and BB this is dependent on your chosen kitchen style.

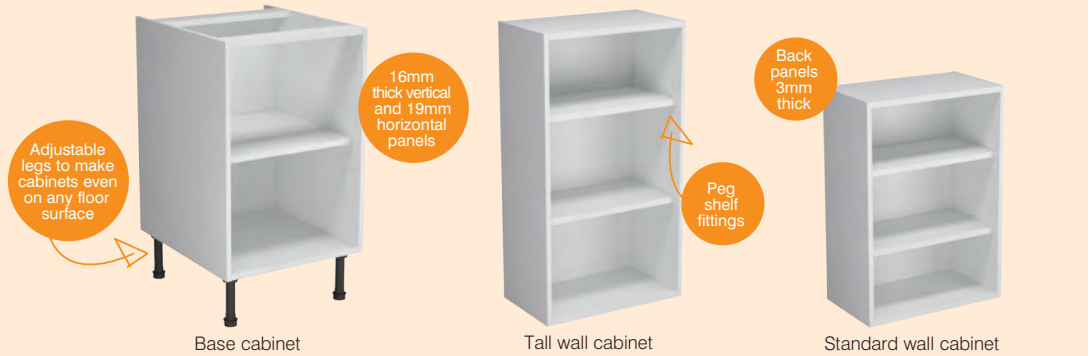

Door packs to be selected based on the size of the appliances being used. Pack H oven filler panel can be cut to size to accommodate various appliance heights. When placing one appliance above another you may wish to use filler panel H in between.

*** Tall sizes are only available for the Cooke & Lewis ranges.

All of our B&Q kitchen cabinets are designed to bring you a high specification at a great price. With Cooke & Lewis and Cooke & Lewis Clic, there are even more features, benefits and choice

Clad-on kits

Wall clad-on kit W310 x D60 x H820mm x2 with curved front edge	Ivory classic style	3277928	€104
Base clad-on kit W595 x D60 x H900mm x2 with curved front edge	Ivory classic style	3277911	€118
Tall clad-on kit W590 x D18 x H2150mm x1 with squared front edge	Ivory classic style	3432204	€153

* Clad on panels for these ranges are oversized in height and depth and will need to be trimmed to fit. This is so that they can be scribed to the wall and floor if required. It also means the cornice and pelmet can be butted against them to achieve a very modern look and to stop the need to mitre the cornice or pelmet. They are supplied with a reversible front edge; one with a curved radius and one with a square edged radius.

Cornices, pelmets & corner posts

Colour co-ordinated cornice, pelmets & corner posts featured on this page are colour-matched melamine. To complete the look of your dream kitchen you may choose to add a cornice to the top of your wall cabinets and a pelmet to the bottom of you wall cabinets (our cornice/pelmet can be used on both). You may also want to consider hiding the legs of your cabinets with a plinth around the bottom of your kitchen.

Cornices, plinths, pelmets etc.

To complete the look of your dream kitchen you may choose to add a cornice to the top of your wall cabinets and a pelmet to the bottom of you wall cabinets (our cornice/pelmet can be used on both). You may also want to consider hiding the legs of your cabinets with a plinth around the bottom of your kitchen.

MADE TO
MEASURE
WORKTOPS

bespoke worktops*

Granite
Beautiful natural stone, shaped to fit your kitchen exactly.

Quartz
Man-made granite alternative, templated and cut to your design.

Solid surface
Made-to-measure work surfaces installed to your unique design.

How to order

Discuss your requirements

Discuss your kitchen design requirements with one of our B&Q design consultants in-store or, if you prefer, we will visit you at your home. Our custom worktops are available with fully installed B&Q kitchens, as well as supply only with any B&Q kitchen.

You decide

Select your preferred finish from our display stands and decide on your required profile from our range of options. Design consultants are equipped with display boards for home design appointments. (Display stands for moulded worksurfaces are available in all B&Q Warehouse stores) Once your kitchen plan has been finalised, our design consultant will provide you with a preliminary quote for your custom worktop.

Surveyor visit

Our initial quote is subject to a surveyor site visit. This requires a B&Q surveyor to visit your home to check your kitchen for electrical socket positions, location of window sills etc. Once completed, a final price will be submitted for your approval.

Digital template

Once your new kitchen cabinets have been installed, one of our specialists will visit your home to take a digital template of the worktop area. Your bespoke granite, quartz or solid surface worktop will be made while our kitchen fitters complete the installation of your cabinet furniture.

Installation

Approximately 5 days (10 days for solid surface) after the design of the digital template, our installation team will arrive to install your new worktop. Then, another visit from our kitchen fitters will follow to connect up your taps, sinks and appliances.

Profiles and corners

square edge profile

double 8mm radius profile

bullnose 15mm radius profile

Granite - tough, hard wearing, seamlessly beautiful, our custom made worktops are a fantastically bespoke yet practical choice. (30mm thickness)

Quartz - all the properties of granite with a more consistent composition offering modern design appeal. (30mm thickness).

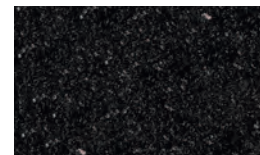

Solid surface worksurfaces - these are natural effect acrylic stone worksurfaces with a contemporary finish, inconspicuous joints and unique features. (12mm acrylic, 38mm overall thickness).

*As yet this service is unavailable in the Republic of Ireland. Please ask in store for details.

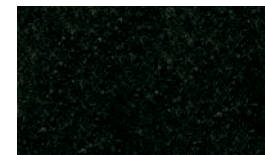

30mm beautiful natural stone granite worktops are resistant to normal everyday wear and tear. As a natural material, colours and patterns vary piece to piece, making it unique to you.

Introducing Cooke & Lewis Gemstone, a new, enchanting kitchen worksurface range that's as hard as Quartz, as beautiful as Granite and as easy to install as Earthstone!

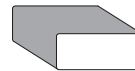

don't forget...

Installation kit 5397007122268	€94.75
Maintenance kit 5397007122282	€94.75

what's it made of?

A 6mm solid material bonded to a 28mm high performance chipboard core, Cooke & Lewis Gemstone is the perfect green choice, formulated with 85% recycled material.

Profile options

Note: Gemstone worksurfaces are fitted in a similar way to Earthstone, but require high quality Polycrystalline Diamond cutters and Grooves. For a perfect fit ask our installation Team for help.

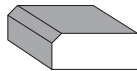

An innovation in kitchen work surfaces, 34mm thick Earthstone effectively bridges the gap between granite and laminate.

don't forget...

Solid wood installation kit
3411704 €131

Solid wood sealant
3442319 €34.90

what's it made of?

Solid wood through and through, with finger-jointed staves and kiln dried to 8% moisture content.

Responsibly sourced from sustainable forests

Behind the scenes at B&Q, you'll find 20 years of experience in ensuring that all our timber is from sustainably managed forests

*Beech and oak also available 27mm thick

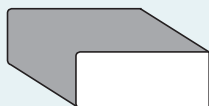

White cashmere (etched) 38mm round edge

Lamininate worktops offer an array of decors including brand new designs and textures with unbeatable durability at an affordable price, ideal for any kitchen design

Features & benefits

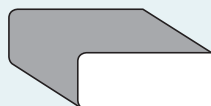

- **Affordable**
Suitable for every budget
- **Durable**
For long lasting surface performance
- **Simple to Install**
Reducing fitting time and cost
- **Vast design range**
Offering a design choice to suit all kitchens

Profile options

Square edge (28mm, 38mm or 50mm)

A fully square profile offering the most striking, contemporary design

6mm profile (38mm)

A tighter edge radius accomplishing a more modern design

10mm profile (28mm or 38mm)

A rounded front edge typically creating a traditional design

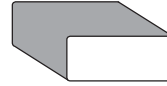

Aeon

Available in 4 superb decor choices there is no compromising style for performance when you select a worktop manufactured with Aeon technology. These decors offer 3-5x the wear resistance of a standard laminate, ensuring superior performance in everyday use.

Square edge profile (28mm, 38mm or 50mm)

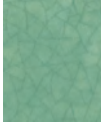

The perfect choice to create a contemporary, bold statement, laminate square edge worktops are available in 3 thicknesses to suit any kitchen design.

Square edge (28mm, 38mm or 50mm)

A fully square profile offering the most striking, contemporary design

Vistelle acrylic splashbacks*

The award winning and innovative high gloss acrylic panel perfect for transforming your kitchen. An easy alternative to tiling.

- Luxurious and elegant glass effect finish
- No templating, can be cut and drilled on site
- Half the weight and greater scratch resistance than glass
- Simple to install using double sided tape and neutral cure silicone
- Easy to maintain

*Not to be used within 50mm of a gas hob

Food waste disposers

If you're looking for an easier way to deal with food waste, here's a simple solution. InSinkerator food waste disposers are the hygienic and convenient way to deal with messy household food waste.

- Dispose of most types of food waste
- Waste is ground to fine particles and safely washed away through standard plumbing
- Means no smelly, messy bins or build-up of bacteria
- Compact and easy to install under most new or existing sinks

M45 waste disposal unit with built in airswitch

- 2 Year manufacturer's warranty parts and labour
- Ideal for the smaller household
- Activated by worktop mounted air switch

50375006381	€135
-------------	-------------

M55 waste disposal unit

- 3 Year manufacturer's warranty parts and labour
- Ideal for larger family households
- Powerful 0.55 HP motor
- Stainless steel grind elements

50375002123	€244
-------------	-------------

Evolution 100 food waste disposer

- 5 Year manufacturer's warranty parts and labour
- Ideal for a family size household
- 40% quieter than m45 and m55 disposers
- Two-stage grind technology
- Built in air switch

50375010562	€317

ceramic sinks

Ceramic sinks are becoming increasingly popular and seen as a material that can look stunning in contemporary as well as the usual traditional kitchen environment. They are individually hand crafted and finished in fireclay, are cool and silky to touch and have a non-porous surface which means they are very easy to keep clean. A simple wipe down after use will keep the sink stain free and looking fantastic for years to come!

composite sinks

Composite sinks are manufactured using real quartz particles meaning they have unrivalled performance characteristics. The strength and durability of quartz means composite sinks are incredibly hard wearing and will withstand everyday use without any effect. They are almost impossible to scratch, will withstand very high temperatures and are extremely resistant to chemicals and staining. If you are looking for a real work horse, that will keep its good looks for years to come, then a composite sink is for you!

CHOOSING THE RIGHT TAP FOR YOU

kitchen taps

One of the most extensive collections you'll find, with names like Franke, Brita, Blanco, Grohe and Smeg, to our exclusive Cooke & Lewis range. We offer a huge choice of styles and finishes to complement any sink.

HP
high pressure
Suitable for high pressure water systems only.

LP HP
low or high pressure
Suitable for low or high pressure water systems.

2
tap holes
Number of tap holes required for installation

single/side lever
Controls temperature and flow with one side lever.

ceramic disc valve operation
More hardwearing valves with easier, low friction operation. Available in either 1/4 turn or single lever styles.

don't forget...

You need to check if you have a high or low pressure water system and choose your tap accordingly. We've created this guide to help you.

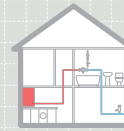

low pressure water system

You have a cold water tank in your attic and a hot water tank in your airing cupboard.

You can choose any of our low pressure taps (minimum operating pressure of 0.1 – 0.5bar).

high pressure water systems

1. You have a boiler unit but no hot water cylinder, the boiler unit is usually found in the kitchen and delivers hot water on demand.

2. You have a hot water cylinder with an expansion vessel on top, usually found in the airing cupboard, but you do not have a cold water tank. You should be able to choose any of our taps.*

Pillar taps

Athens pillar taps **SS** ◆
■ Compression valve operation
■ Twin controls
Chrome finish 5178803 **€20.90**

Madrid pillar taps **SS** ◆
■ Compression valve operation
■ Twin controls
Chrome finish 5320639 **€27.90**

Boston pillar taps **SS** ◆
■ Quarter turn ceramic disc valve operation
■ Easy to use twin lever controls

Minta Touch electronic tap ◆

- Innovative Touch technology
- Hybrid mixer, allows both, manual and electronic activation
- Touch mixer on the spout to turn it ON and OFF
- To determine temperature and flow rate, just activate your mixer via lever.

Chrome finish	4005176929830	€477
---------------	---------------	------

Clean and hygienic

Your mixer tap stays clean when your hands aren't. Start the faucet with your forearm or wrist to avoid cross contamination – it also keeps your mixer clean

Easy-to-use

A simple touch of the spout or body is all it takes to turn the mixer on or off.

A fusion of Design and Technology. Invisible technology meets outstanding design.

Hot water dispensers

A hot water dispenser is the latest must-have for busy modern kitchens. With one of these, you won't need to clutter up worktop space with a kettle. These advanced taps deliver instant steaming hot water at any time.

- Energy efficient and economical – saves time and money
- Space saving compact design – no need for a kettle
- Enjoy up to 100 cups of steaming hot water per hour
- Easy to install into existing kitchens
- Adjustable temperature dial
- Compact and convenient
- Unique single handle (3300 model)
- Model 3300 features a hot push-lever locking mechanism
- 360°C Spout swivels for convenience
- Taps easily installed on either the work surface or the sink
- Easy replaceable filter

single ovens

Sourced from the world's leading manufacturers, our range features some of the most stylish designs and advanced cooking technologies available. Our useful symbols shown below will help you choose.

LED programmable timer

Ensure every dish is cooked to perfection – choose an oven with a programmable timer.

Self-cleaning ovens!

Some of our ovens are **pyrolytic** and use the ultimate in self-cleaning technology. Protected by an automatic locking, quadruple-glazed door, the oven heats up inside to 500°C to burn off any grease or dirt in no time at all.

Large viewing window

Allows you to see what you are cooking and a double glazed door ensures the outer temperature never gets too hot to touch.

Catalytic stay clean liners

Featured in some ovens, these break down grease or spilled food when used on a high heat setting. The next best thing to pyrolytic.

Interior light

All our ovens come with interior lights either fitted at the back, top or sides.

Choose your finish

We offer different colours and finishes across the range including black, stainless steel, white glass or brushed steel to complement your kitchen style.

symbols guide...

Which type of cooking?

Different types of oven distribute the heat in different ways. There are 3 main options:

Fan oven

A fan at the back continuously circulates hot air for a more even heat distribution, which can cook more quickly.

Conventional oven

Heating elements at the top and bottom circulate hot air naturally, creating varying temperatures – perfect for the Sunday roast!

Multifunction oven

Fan and conventional cooking in one oven. Plus, they offer a range of functions such as defrosting and rotisserie style/fan assisted grilling.

10 Cooking functions

How many does a cook need? Some of our ovens have more than others including functions such as 'defrost' and 'gratin'.

65ltr MAIN 30ltr TOP Oven capacity

Our ovens range from 53 to a massive 72 litres. 'Top' applies to the capacity of the second oven, normally used for cooking and grilling, in double ovens only.

Grilling

Provides fast cooking and virtually instant heat, perfect for browning meats quickly. Some ovens offer full or half grill options, whilst some include a fan for a more even cooking result.

Grilling

Fan grilling

Half grill

Fan with half grill

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A' being the most efficient and 'D' being the least.

25 AMP Electrical connection

This symbol indicates the power supply in amps. This is a guideline only; speak to a qualified electrician.

Manufacturers' guarantees

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model.

Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

KEY
FEATURES
TO LOOK
FOR IN

double ovens

A double oven gives you extra space to cook larger meals and combinations of food. Being able to use both ovens on completely separate temperatures gives you lots of flexibility.

LED programmable timer

Ensure every dish is cooked to perfection – choose an oven with a programmable timer.

Main oven **65ltr** MAIN

This has the largest capacity and is always the lower of the two ovens. Check out the symbols next to each product to find ovens that offer conventional, fan or multifunctional cooking.

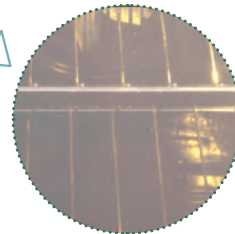

Top oven **30ltr** TOP

With a smaller capacity than the main oven, the top oven offers extra space for cooking. Some include a fan for a more even cooking result. Top ovens also include a separate grill - look out for full or half grill options.

Catalytic stay clean liners

When used at a high heat, ovens with a catalytic liner break down the grease in any food spilt onto them – making cleaning less of a chore.

Built under or eye level?

Built under: the most conventional choice, fitting neatly under a worktop with or without a housing depending on brand (see oven features for details).

Eye level: fitted in a tall oven housing

Built under double ovens

KEY
FEATURES
TO LOOK
FOR IN

microwave ovens

Perfect for meals in minutes, some of our microwave ovens feature grills, fan ovens and automatic programmes. Look out for built in or freestanding models and use our symbols guide to help you choose.

symbols guide...

65ltr MAIN Microwave capacity

Our microwaves range from 20 to 36 litres.

9 Power levels

Giving you the power, check out the number of levels for varying degrees of flexibility. Power levels allow you to fine tune or adapt your recipes – various types of food will require different power levels.

800w 800w GRILL Output

Measured in Watts, from 800w to 1000w, the wattage determines the speed with which your microwave will cook. Generally the larger the capacity of the microwave oven, the higher the wattage will be.

+ Fan oven function?

The fan oven function allows you to use your microwave as a conventional oven. The fan oven function makes roasting and baking possible as air is circulated inside the cavity.

QS Quick start

When speed is of the essence, the quick start function lets you begin heating with the touch of a button. The microwave starts on full power for a pre-determined time.

i Child safety

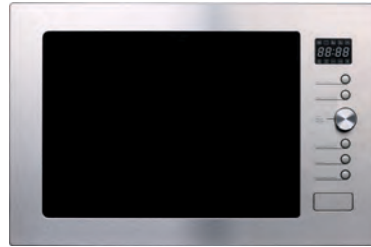

For safety first, microwaves with this feature allow you to lock the oven so that tiny fingers can't open or operate it without your knowledge.

Manufacturers' guarantees

2yr PARTS 2yr LABOUR

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturer's websites for guarantee details.

ceramic hobs

A great choice for high performance and low maintenance.

Glass surface

All of our ceramic hobs have a sleek, black glass surface, making them easy to wipe clean and maintain.

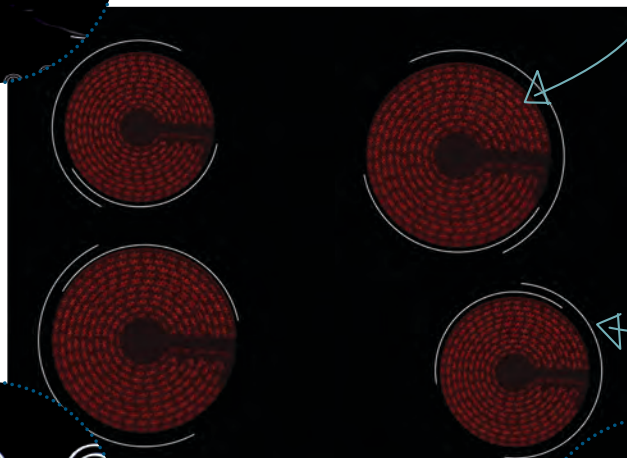

Fast-start zone technology

Some of our models feature this, resulting in quicker heating up times than standard ceramic hobs.

Hot hob indicator

Most of our ceramic hobs come with a "hot hob" indicator that lets you know when the ceramic is still too warm to touch.

Timer function

Look out for models with electronic timers allowing you to control each zone with automatic switch-off and an audible warning.

Choice of controls

Choose from traditional rotary style controls or innovative touch controls that mean a totally smooth surface.

symbols guide...

Which type of hob?

Ceramic
High performance and low maintenance. Rapid heat and halogen zones give speed and controllability.

Induction
The quickest and most energy efficient choice. It heats the pan and leaves the hob cool to the touch.

Solid plate
With raised, hard-wearing cast iron hot plates, some models have 'red dot' rapid heat zones for faster cooking.

Gas
The most responsive choice. Gas gives better temperature control than most electric hobs.

Electric zones

Our electric hobs all include 4 electric zones.

Gas burners

Choose a model with 4 or 5 gas burners. Larger 5 burner models give extra cooking space and have a powerful wok burner.

Dual zone

This is a clever feature that means that larger griddles or pans can be used and because it is a user selectable zone, it means it can also be used as a single zone saving energy.

Power levels

The more power levels offered, the more flexibility you have to control the temperature.

Auto ignition

With no separate ignition control the result is a sleeker overall appearance.

Child safety lock

This clever safety feature allows you to lock the controls so that tiny hands can't turn the hob on whilst your back is turned.

25 AMP Electrical connection

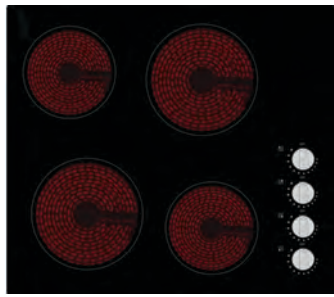

This symbol indicates the power supply in amps. This is a guideline only; speak to a qualified electrician.

Manufacturers' guarantees

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

CHOOSE
FROM OUR
RANGE OF

induction hobs

Instant, precise and even heat. Heats the pan and not the hob.

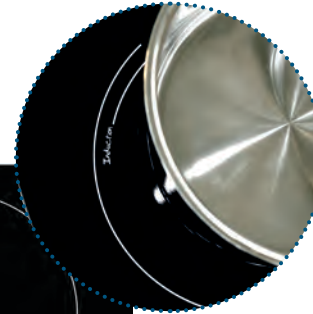

Safest way to cook

Electro-magnet generators underneath the surface of the hob generate a current that's only transferred to the pan. All other areas of the hob stay cool to the touch.

Efficient sensors

Induction hobs automatically sense the size of the pan placed on the ring, however large or small, and only heat the pan making them very energy efficient.

Timer function

Look out for models with electronic timers allowing you to control each zone with automatic switch-off and an audible warning.

Touch controls

All of our induction hobs offer touch controls resulting in a completely smooth surface.

Easy clean

Our induction hobs have a sleek ceramic surface making them easy to wipe clean and maintain

gas hobs

A great choice for adventurous chefs – gas burners give you responsive, immediately controllable heat.

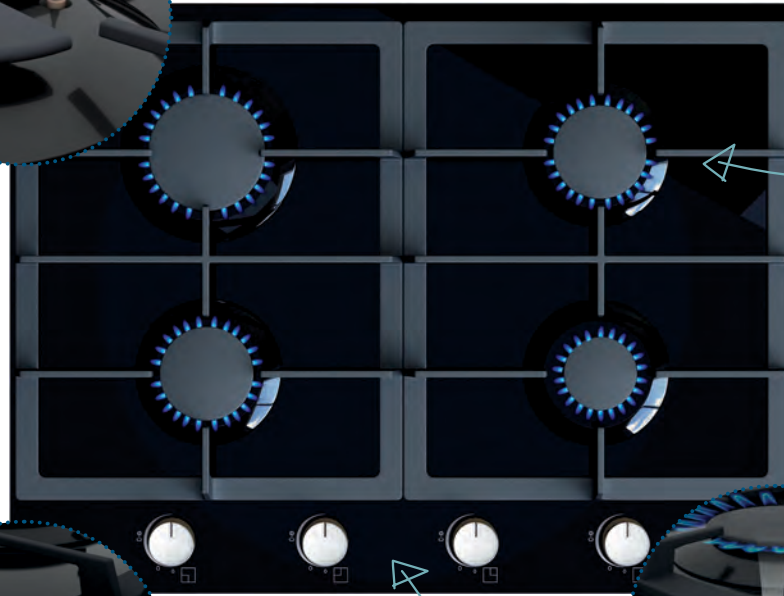

Flame failure technology

A clever safety feature that stops the flow of gas when the flame goes out to prevent a gas leak

Choose your finish

Stainless steel, brushed steel, black or white glass – choose from a range of colours and finishes.

Pan supports

Either cast iron or enamel, they provide a solid base for your pans.

Glass surface

Some of our gas hobs have a smooth glass surface making them easy to wipe clean and maintain.

Automatic ignition

No need for a separate ignition control resulting in a sleeker overall appearance.

You can do it

hoods

Cooker hoods are an important part of cooking, extracting grease and odours out of the air so your kitchen is a fresher, more hygienic and enjoyable environment.

Glass surface

Some of our hoods have a glass surface making them easy to wipe clean and maintain.

Adjustable chimney sections

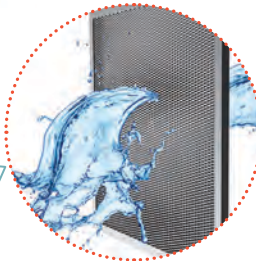

Allows easy fitting in almost any environment.

Control panels

Choose between push-button models, sliders or super-smooth touch controls for a sleek looking hood.

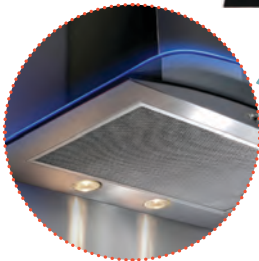

Aluminium filter

Filters are dishwasher safe – regular washing will provide maximum performance.

Light

All of our hoods include a light. Look out for low energy bulbs, LED or halogen.

Extraction or re-circulation?

Extraction is more efficient, drawing vapours outside – for this your hood needs to be close enough to an outside wall for ducting to be installed. Recirculation is a great alternative and draws odours through a filter to be purified and released back into the kitchen.

symbols guide...

Which type of hood?

Your kitchen and cooker type will help to determine the type of hood that you need; your style will help to determine the design. Choose from built in or integrated hoods; chimney hoods, island hoods or freestanding. Our hoods range includes smooth, curved or flat glass and sleek stainless steel visor or designer box hoods.

380 ^{m³/hr} Extraction rate

The rate of extraction is measured in cubic metres per hour (m³/hr); the higher the figure, the better the rate of extraction – this varies across different types of hood and between models.

3 ^{SPEED} Speed settings

This symbol indicates the number of speed settings available to extract or re-circulate air.

53dB(A) Noise level

Noise levels range between 46dB and 76dB.

⌚ Timer

Once the timer feature is activated the extractor will operate for 5 minutes at current speed and 5 minutes at each of the lower speeds until coming to a complete stop.

WASH ^{WASHABLE} Washable filter

Filters are dishwasher safe – regular washing will provide maximum performance.

25 ^{AMP} Electrical connection

This symbol indicates the power supply (amps). This is a guideline only; speak to a qualified electrician.

2 ^{VENT PACK} Vent pack

To extract air outside you will need a vent pack. This symbol appears below each product and shows which number vent pack you need to buy. See page 262 for vent packs.

Manufacturers' guarantees

2yr ^{PARTS} 2yr ^{LABOUR}

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

FEATURES
TO LOOK
FOR IN

dual fuel range cookers

A passion for cooking deserves an outstanding cooker. Our choices ensure that style and elegance go hand in hand with extreme versatility.

Fuel options

A dual fuel range cooker gives you the benefit of cooking with an electric oven but with the responsiveness of a gas hob.

Self-cleaning ovens!

Some of our ovens are **pyrolytic** and use the ultimate in self-cleaning technology. Protected by an automatic locking, quadruple-glazed door, the oven heats up inside to 500°C to burn off any grease or dirt in no time at all.

Glass door?

Allows you to see what's cooking – no need to open the door and let heat escape whilst cooking.

Size matters!

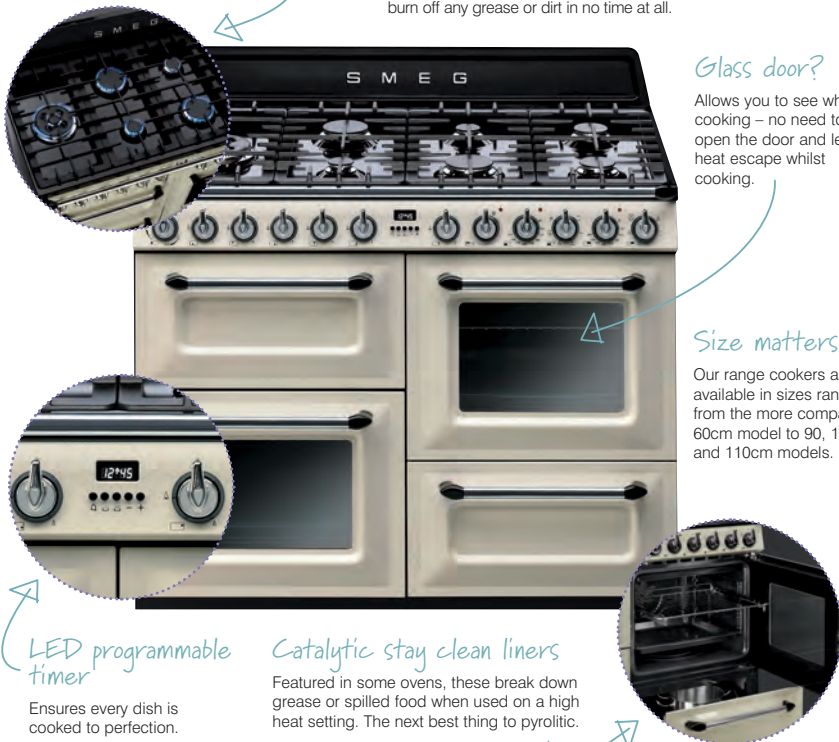

Our range cookers are available in sizes ranging from the more compact 60cm model to 90, 100 and 110cm models.

Catalytic stay clean liners

Featured in some ovens, these break down grease or spilled food when used on a high heat setting. The next best thing to pyrolytic.

LED programmable timer

Ensures every dish is cooked to perfection.

Symbols guide...

Which type of cooking?

Fan oven

Continuous circulation of hot air ensures even heat distribution and faster cooking.

Conventional oven

Heating elements circulate hot air naturally creating varying temperatures – perfect for the Sunday roast!

Multifunctional oven

Fan and conventional cooking in one oven. These ovens offer a range of functions, some offer defrosting, rotisserie style/fan assisted grilling.

Oven capacity

Our range cookers all have two ovens with main oven capacities ranging from 42 to a massive 76 litres.

Electrical connection

This symbol indicates the power supply in amps. This is a guideline only; speak to a qualified electrician.

Grilling

Provides fast cooking and virtually instant heat, perfect for browning meats quickly. Some ovens offer full or half grill options, whilst some include a fan for a more even cooking result.

Grilling

Fan grilling

Half grill

Fan with half grill

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A' being the most efficient and 'D' being the least.

Manufacturers' guarantees

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

electric range cookers

Stylish and functional with fast warm-up times, our electric range cookers provide you with a great deal of cooking flexibility.

Induction hob?

Look out for induction hob models – these hobs heat the pan and not the hob offering a smarter, faster, safer and energy efficient way to cook.

LED programmable timer

Ensures every dish is cooked to perfection.

Size matters!

Our range cookers are available in sizes ranging from the more compact 60cm model to 90, 100 and 110cm models.

Slow cook oven

Take a look at models that feature a dedicated slow cook oven – perfect for cooking meals on a low heat; ideal for stews and casseroles.

Glass door?

Allows you to see what's cooking – no need to open the door and let heat escape whilst cooking.

Catalytic stay clean liners

When used at a high heat, ovens with a catalytic liner break down the grease in any food spilt onto them – making cleaning less of a chore.

Telescopic sliders?

Some of our electric range cookers feature intelligently designed telescopic shelves that allow easy access to food inside the oven.

CHOOSE FROM OUR RANGE OF

range cooker hoods

symbols guide...

Which type of hood?

Once you've chosen the style, size and colour of range cooker you want you can choose a range cooker hood to match. There's three sizes available, 90, 100 and 110cm widths in a choice of stainless steel and black finishes.

380 m³/hr Extraction rate

The rate of extraction is measured in cubic metres per hour (m³/hr); the higher the figure, the better the rate of extraction – this varies across different types of hood and between models.

3 SPEED Speed settings

This symbol indicates the number of speed settings available to extract or re-circulate air.

53dB(A) Noise level

Noise levels range between 55dB and 75dB.

Timer

Once the timer feature is activated the extractor will operate for 5 minutes at current speed and 5 minutes at each of the lower speeds until coming to a complete stop.

2 VENT PACK Vent pack

To extract air outside you will need a vent pack. This symbol appears below each product and shows which number vent pack you need to buy. See page 262 for vent packs.

WASH Washable filter

Filters are dishwasher safe – regular washing will provide maximum performance.

25 AMP Electrical connection

This symbol indicates the power supply (amps). This is a guideline only; speak to a qualified electrician.

washing machines

Whether you need a washing machine, a tumble dryer or a space-saving washer-dryer, our range is all designed to be integrated giving a perfect, seamless look to your kitchen or utility room.

Built in Washing Machines

How many programmes?

Each of our machines features a variety of programmes for different levels of dirt and for various materials. Look out for 'quick wash' (for speed), 'delicates' (for those special items) 'hand wash' (to save your hands) and 'sports' (for sportswear and shoes).

Washer dryers

A great space-saving solution, all of our washer dryers feature condenser dryers – there's no need to fit a ventilation kit. Fit wherever you have a power supply.

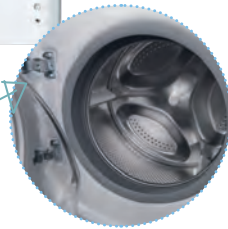

Time delay

With a time delay function you are in control. Why not programme a wash overnight when electricity may be cheaper?

Spin speed

Spin speeds range from 1200rpm to 1400rpm – the faster the speed, the less drying will be required. Variable spin speeds allow you to reduce the speed for more delicate items.

Load capacity

All of our models offer between 6 and 8kg load capacity (more than the standard 5kg). A larger drum size also helps to reduce creasing.

symbols guide...

Performance

A higher rating gives a better wash/drying performance. Wash is based on tests at 40°C

Wash performance

Dry performance

Load capacity

Drum capacity is measured in kilograms and is based on a cotton load.

Spin speed

Faster spin speeds remove more water from your wash and reduce drying times.

Spin efficiency

The higher the rating the better the performance. 'A' indicates the best performance.

How many programmes?

Look out for the number of programme options available with each machine - programmes such as pre-washes and gentle washes for delicate items.

Hand wash

Models with the Platinum Woolmark symbol are endorsed by the Woolmark Company and are designed to reduce the risk of shrinking, felting or bobbling with hand wash only items.

Quick wash

The quick wash function is ideal for items that just need freshening-up.

Time delay

With an integrated delay timer you can run your washing machine overnight when electricity may be cheaper.

Half load

This function allows you to wash smaller loads on a setting that uses less energy and water.

Child safety lock

This clever safety feature allows you to lock the controls so that tiny hands can't turn the appliance on whilst your back is turned.

Water consumption

Measured in litres and based on a standard 40°C cotton cycle, lower consumption machines can save you money on metered water bills.

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A+++' being the most efficient and 'D' being the least.

Manufacturers' guarantees

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

figures explained...

47 Most of the washing machines in our range show water consumption figures per standard cycle at 60°C.

Washing machine models launched since the change in legislation 1st December 2011 show an annual water consumption figure instead. This is based on 220 standard loads per year on the standard cotton cycle (4-5 loads per week).

**KEY
FEATURES
TO LOOK
FOR IN**

built in dishwashers

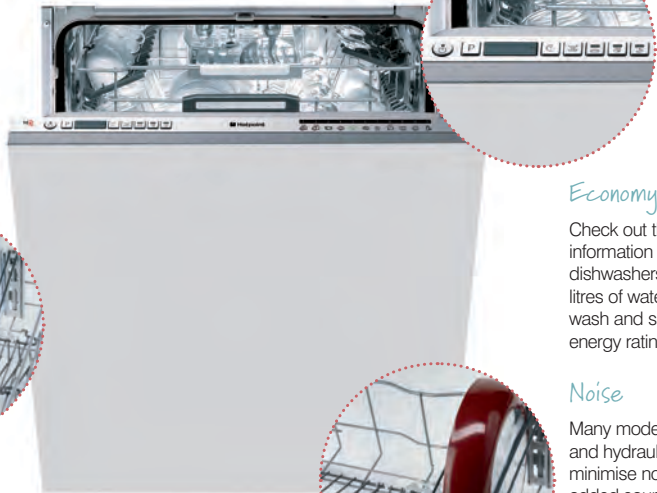

Washing the dishes has never been less of a chore. With a wide range of sizes to suit your lifestyle, you can also choose from fully or semi-integrated to suit your kitchen.

Size and capacity

Each of our dishwashers indicate the number of place settings that they wash – usually between 12-15. Consider that as well as the physical size of the dishwasher. Slimline models offer all standard features and typically wash 9-10 place settings.

Integrated?

A fully-integrated model can be fitted with a cupboard door for a seamless look to your kitchen. Semi-integrated models can be fitted with a drawer-line door to match your cupboards but still reveal the control panel.

How many programmes?

Many models offer 'quick wash' programmes (for speed) or 'half wash' (for energy efficiency). Some models feature intelligent sensors and motors that detect the level of food debris and wash accordingly.

Economy

Check out the energy information on each of our dishwashers. Some use 6 litres of water or less per wash and some feature energy ratings of A+++.

Noise

Many models feature motors and hydraulics designed to minimise noise as well as added sound insulation built in. Consider the noise level when browsing our range.

Easier loading

Foldable plate racks, removable cutlery baskets and height-adjustable upper baskets are all clever features that you'll find helpful.

symbols guide...

Performance

A higher rating gives a better wash/drying performance. Wash is based on eco programme at 50°C and there are two types of drying action – natural (or residual) and hot air (or active).

Wash performance

Dry performance

Place settings

Full-size dishwashers have room for 12 or more place settings. Slimline dishwashers can fit 9 or 10 place settings. A place setting consists of a cup, a saucer, a bowl, a side plate, a dinner plate and cutlery.

Wash temperature

This indicates the number of temperatures you have to choose from during the wash cycle.

How many programmes?

Look for the number and type of programmes that you'd find useful. The higher the number the more options you have such as pre-washes for burnt on food and delicate washes for glassware.

Time delay

Models with this feature have an integrated delay timer - you can run your dishwasher overnight when electricity may be cheaper.

Half wash

Models with this feature allow you to wash smaller loads on a setting that uses less energy and water.

Water consumption

Measured in litres, lower consumption machines can save you money on metered water bills.

Noise level

Another consideration is the noise level. As an indicator, noise levels around 53dB are good, but some go as low as 41dB; as quiet as a boiling kettle.

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A+++' being the most efficient and 'D' being the least.

Manufacturers' guarantees

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

KEY
FEATURES
TO LOOK
FOR IN

built in fridge freezers

Integration is the key to clean, smooth lines in your kitchen. With our fridge freezers designed to be built in, we're sure you'll have the coolest kitchen around.

Storage

Lots of features are designed around you. Wine racks, deep door storage, large salad bins and innovative ice storage devices are all features to look out for.

Anti-bacterial coating

Many models feature this unique layer that prevents the growth of bacteria and ensures that your fridge is the safest place to store your fresh food.

Size and capacity

Traditionally a 50/50 fridge/freezer, we now offer models that are split 60/40 or 70/30 to suit your lifestyle.

We also offer a range of separate under-counter fridges and freezers.

Economy

Every appliance carries an industry standard energy efficiency rating. 'A++' is the most efficient - best for your pocket and the environment.

Controls and features

Either set and forget or choose innovative electronic controls with temperature displays. Look out for frost-free models and those that feature fridge airflow systems, prolonging the life of fresh food.

symbols guide...

Star rating

This shows the operating temperature of the freezer.

Capacity

The capacity of a fridge or freezer is measured in litres – the higher the number, the more space you'll have.

Storage

Consider the space you need for your food. The symbols below show you how many shelves or drawers the fridge/freezer compartments have.

Reversible doors

Most models have a reversible door so you can choose whether they open to the left or right.

Frost free

Circulating cold air around the freezer prevents the build up of ice.

Auto defrost

An intelligent feature that defrosts automatically without ruining the food inside. Regular defrosting means lower energy bills.

Fast freeze

Ideal when you need to freeze larger amounts of fresh food enabling you to lower the temperature of all or part of your freezer.

Safe storage hours

The amount of time that your food will stay frozen in the event of a power cut.

Energy efficiency

These symbols tell you how energy efficient each appliance is with 'A' being the most efficient and 'D' being the least.

Manufacturers' guarantees

Every appliance is covered by a manufacturer's guarantee for parts and labour. This varies according to the brand and the model. Your legal rights are not affected. Please see individual manufacturers' websites for guarantee details.

side by side fridge freezers

For lots of capacity and innovative features, our side by side fridge freezers have it all. Take a look at some of the features below and choose a model that suits your kitchen and your lifestyle.

LED display

An electronic touch control LED display gives you complete control at your fingertips without ever having to open fridge or freezer door, saving you energy and time.

Wine rack

A stylish, elegant and safe way to store your wine bottles. Also suitable for standard 2 litre soft drink bottles. Take a look at this and other innovative features on offer.

Chiller zone compartment

Stores fresh meat, fish, cooked and chilled food at around 0°C for safer and longer storage.

Water and ice

Many of our side by side fridge freezers feature an integrated dispenser for instant access to chilled water and / or ice.

Dual cooling system

Independent cooling systems ensure a high humidity level in the fridge to prolong the life of fresh fruit and vegetables.

Doing our bit for energy efficiency

All our fridges, freezers, dishwashers, washing machines and single ovens are at least A rated – and you'll find some as high as A+++ rated.

Behind the scenes at B&Q, we've been working closely with our suppliers to make our kitchen appliances more energy efficient. Replacing old appliances with our energy efficient models will help to keep the running costs of your new kitchen down. To save even more, use timers on washing machines and dishwashers to wash at off-peak electricity times of day and try to avoid half loads.

You can do your bit to reduce the pace of climate change - reduce your energy consumption to reduce your carbon emissions.

B&Q One Planet Home
a big plan for a small planet

² Included in this price is a contribution to recycling costs of €10.00

All guarantees are manufacturer guarantees. This does not affect your legal rights.

fridge freezers

When choosing the right fridge freezer for you, consider a model that suits your lifestyle and the space you have available.

A++ energy rating

For greater efficiency, choose a model with the highest rating. Not only will you be helping the environment, you'll also be helping your pocket.

Configurations

Consider the food that you regularly keep cool. Our fridge freezer range offers various configurations depending on whether you need more fridge or more freezer. Look at 50/50, 60/40 or 70/30 splits.

Frost free

Air is circulated around the appliance and prevents frost from forming – no more time spent scraping ice off your freezer elements.

Fast freezing option

A useful feature to look out for – it's ideal for when you want to freeze a large quantity of fresh food.

Maximised space

A variety of clever storage options help you to make the best use of your fridge freezer. Wine racks, adjustable shelves and deep door storage are all features to help you.

after sales service

Although we pride ourselves on an excellent track record, very occasionally things do go wrong. If you have a problem with your appliance, you should follow the procedure below, which will ensure we rectify the situation as quickly as possible.

For damages or returns

Please contact our Home Delivery Centre on 1800 946 327. Damages should be reported as soon as possible but no later than 28 days from receipt of delivery. Please do not install the product if you know it is damaged.

If a fault develops once your appliance is fitted

You should contact the manufacturer direct. They will arrange for an engineer to visit your home – usually within 48 hours – to carry out the necessary repairs. If the appliance is not repairable, they will arrange delivery and fitting of a free replacement. Please note this service is only available within the guarantee period. Appliances must be fitted by an installer with the required registration for gas or electrical work, who complies with all current regulations.

don't
forget...

Spares and accessories service

We are now able to help you replace your spare parts at the click of a button, visit www.diy-spares.com. With over 1.4 million items, delivered direct in 2-7 days* and featuring over 270 brands including Bosch, Whirlpool, Indesit, Hotpoint and Zanussi, you can shop by brand, product or even use our parts enquiry service.

Visit www.diy-spares.com today!

* Delivery in 2-7 days. Express Delivery Service (next day) offered at additional cost. B&Q is pleased to offer this service in partnership with diy-spares.com. All transactions will appear as diy-spares on your invoice and credit card statement.

ways to pay

At B&Q you can pay by Mastercard and Visa.

Price promise

If you find the same product or equivalent own brand even 1 cent cheaper within the Republic of Ireland, we'll refund the difference and give you an extra 10% off the lower price.

All we ask is that the lower price is generally available to any potential customer on the day that you call back, within 14 days of purchase, with proof of purchase.

In order to avail of the price promise you must have bought the product at B&Q.

The price promise cannot be redeemed on online purchases, mail order purchases, installation or delivery.

We do not price promise against Retail, Wholesale or Warehouse Clubs requiring membership.

Trade Card and Diamond Card holders can avail of the price promise or use their discount card, not both.

Delivery

Available by home delivery

Items with this logo are available to order for delivery direct to your home*. Delivery times vary depending on the product so please ask at the time of ordering.

Delivery from our specialist delivery team

Order Value*	Home Delivery Charge
€0 – €500	€25
over €500	FREE

*Charges refer to the value of goods being delivered and exclude services.

Products with this logo are available to take home today from all of our stores (dependent on stock).

Products with this logo are available to take home from selected stores, please check with your local store.

If an item isn't in stock your local store will be able to get it for you.

Items with these symbols are available to order in store for collection from store.

Product detail

All products are subject to availability. All specifications are correct at time of print. Whilst we try to ensure accurate colour representation, please be aware that the photographic process may sometimes alter colours. Some items in our photographs are included for display purposes and are not necessarily intended to be installed as shown with regard to proximity. Please refer to the instructions supplied with your product before installation. A summary of this price guide is available in Braille, large print or on audio cassette. Please ask at your local store for details or email us at diversity@b-and-q.co.uk

When you have finished with this magazine please recycle it.

*All guarantees are manufacturers guarantees. This does not affect your legal rights.

Your nearest store

Store listed in orange is a large B&Q store. Our stores are open from early morning to late evening Monday to Saturday with reduced hours on Sunday.

Our returns policy

Please keep your receipt for anything you buy from us. It will ensure we can help you, if you need to bring something back.

Terms and conditions

If you return a product unused, with the original receipt within 45 days of purchase (or delivery where applicable) we will exchange the product or issue a refund based on the original method of payment. For purchases made by debit/credit card, the same card must be used to process the refund. B&Q customer sales forms are an acceptable form of receipt.

Products that have been cut, made to measure or mixed to your requirements cannot be exchanged or refunded.

We reserve the right to refuse a return or to require proof of identity.

YOUR CONSUMER RIGHTS ARE NOT AFFECTED

If the product you purchase is faulty, or not as described, we may offer an exchange, refund or repair as appropriate, in accordance with your consumer rights.

You can return your items by:

In the first instance, **return via Home Delivery**

- contact us on 1800 946327. Lines are open 8am – 8pm Monday to Saturday and 10am – 4pm Sunday.
- e-mail us at home.delivery@b-and-q.co.uk
- write to us at B&Q Customer Services, Torrance House, Erskine Harbour, Erskine, Renfrewshire PA8 6PA

Alternatively, return the product to your local B&Q store

- you will need to take the product, your receipt/sales advice and the debit/credit card you used for payment with you

Doing your bit

Waste Electrical and Electronic Equipment (WEEE) and waste batteries must never be placed in any of your household wheelee bins. WEEE is taken back free of charge at electrical retail outlets on a one-on-one like-for-like basis. There is a container for small waste batteries in your local store. Local authority civic amenity facilities also take back WEEE and waste batteries free of charge. WEEE and waste battery recycling is free.
