## How to hang **paste the wall wallpaper**

Pasting the wall instead of the paper is so much easier and quicker to do!

**1** Make sure your wall is clean and dry. Use a roller to apply an even layer of paste the wall wallpaper adhesive, where the first drop will hang. Don't paste the whole wall though.

**2** Starting at the top of the wall, hang the first wallpaper drop, sliding it into place. Smooth the paper down with a brush, working in downward movements.

**3** Press into the angle of the ceiling and skirting, and score a cutting line. Pull away the paper and cut, then smooth back into place. Repeat, matching up your pattern as shown above.
