Helpful 'How to Measure' tips and advice for your bedroom

1

The overall room layout

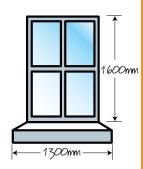

- · Sketch the outline of your room
- · All you require is the general shape

2

Indicate openings - windows, doors, archways and hatched

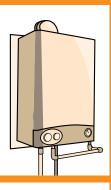

- · Mark the location of windows, doors, archways, hatches
- · Include the opening swing of doors

3

Indicate any obstacles that can't be moved and include main services. electric, water and gas

- · Indicate items that must be planned around
- Your boiler, meters, radiators. soil stack, stop cock, alcoves.
- · Finally add main services, electric, water and gas

7

Measure between each fixed point

- doors, walls and windows
- Pick a logical starting point like a corner and work clockwise around the room to avoid missing anything
- · When measuring doors and windows remember to include frames and architrave, together with the distance from the floor to the underside of the windows

5

Measure obstacles in the room

- · Your soil stack and boiler, radiators, etc
- · Remember to include the width, depth and height of each item
- · Show the obstacle heights and their distance from the floor in mm e.g. H=700mm F=1200mm

8

Measure ceiling heights · Take two or three measurements to ensure the

- ceiling is consistent and mark the height in the
- · If there are obstacles on the ceiling such as a stair slope or landing, mark this on your sketch

middle of your survey

Example

Your sketch should look something like the example shown above. Now you're ready to start stage two of your project -Planning at B&Q

6

Measure main services, electric, water and gas

- . Measure from the nearest fixed point on your diagram to the centre line of each service
- · Include sockets, phone, gas, water and TV point
- · When measuring larger service items such as consumer units, gas meters and radiators, remember to include their width and height from the floor

Helpful tips

- · Remember walls aren't always perfectly square, so measure

- Take photos of any particular feature or bits you're unsure about.

^{*}Supplied with unfinished ends - edging tape will be required if your worktop ends are visible (see page 16).

Worktops can be purchased ready sized and fully edged for freestanding chests and dressing tables or in longer lengths allowing you to create a more seamless look over several chests at the same height. You can also use some of the wider, fully edged tops over multiple chest combinations.

For example: a 910mm top will fit exactly over 2 x 450mm chests side by side.

Measure up & install sliding doors

Creating your sliding wardrobe doors couldn't be simpler. Once you have your doors and trackset at home, fitting them should only take 2-3 hours.

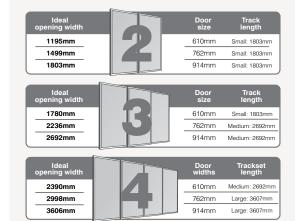

Measuring up

Measure your opening height and width as shown in the diagram below. Take into account your wardrobe interior system and measure up appropriately from the back wall to allow for this. A minimum of 593mm is recomended for use with our Relax and Aura storage systems.

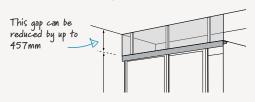

How many standard sized sliding doors will you need?

The table below will help you determine how many of our fixed sized sliding doors you will need. (This only applies to the 610 x 762 & 914mm wide doors).

If your opening space too large?

If your opening space is too large then don't worry! We have the accessories to help!

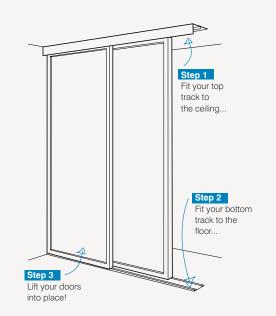

Note: this mainly applies to our fixed sized sliding doors, as the tailor-made doors are made to size

How to install

- 1. Fit your top track.
- 2. Fit your bottom track.
- 3. Lift your doors into place.

It's that simple! ... should only take a few hours to install.

Note: the top and bottom tracks may need to be cut to fit your opening when buying sliding doors, but this is easily done using a standard hacksaw.

ways to pay

At B&Q you can pay by Visa, Mastercard, Switch, Delta and Maestro debit and credit cards.

Price promise

If you find any product even 1p cheaper somewhere else... we'll refund the difference and give you an extra 10% off the lower price.

We're so confident our prices in store are cheaper than our competitors, that if you buy a product from us and find the same product (or the equivalent in the case of B&Q Brand) available locally (within a 10 mile radius) for less - even if it's a sale or special offer price - we'll not just match that price but we'll beat the lower price by a further 10% for your trouble.

All we ask is that the lower price is generally available to any potential customer on the day that you call back, within 14 days of purchase, with a proof of purchase.

The product must be available to the general public. We do not Price Promise against: Retail, Wholesale or Warehouse Clubs requiring membership, Internet or mail order companies, TradePoint and companies within the Kingfisher Group e.g. Screwfix, Services e.g. Installation, Delivery Charges and Chargeable Cutting Service, Staff Discount Card holders (including Group discount) can have a Price Promise or use their 20% Discount Card, not both. TradePoint does not operate a price match policy with our competitors. (TradePoint prices are lower or level with B&Q).
