Sliding Doors

Timber folding sliding doors. A modern concept in patio doors, the Canberra combines the style and elegance of a classic French doors with the space-saving benefits of a sliding door. The sliding and folding mechanism lets you open the doors fully - and when they're closed, the full height glazing lets in maximum light. So even on cold and wintry days you'll feel the benefits of the Canberra.

Whether your home is traditional or contemporary, the Canberra will enhance it beautifully. Manufactured in timber, the doors are supplied ready to stain to match your colour scheme.

Available in 8 configurations covering spans approaching 5 metres.
