We are Forest Friendly - from tropical rainforests to British woodlands

We believe that forests need to be protected to ensure we will always have a source of timber to build and furnish our homes. This is why we only buy from sources certified as sustainable.

Forest Friendly Promise

- ♥ Always from sustainable sources
- ♥ Always replenishing what's taken
- ♥ Helping to protect forest habitats
- ♥ Helping to protect forest livelihoods

B&Q Good Woods Scheme

Supporting UK woodlands and woodland economy.

- ♥ B&Q Good Woods is a pioneering scheme to bring British woodlands back into management and re-invigorate the British woodland economy and timber market
- ♥ Over 20% of B&Q timber and timber containing product is already UK sourced
- ♥ In future we will source more, but over 45% of British woodland is unmanaged so UK timber is in short supply
- ♥ Through Good Woods we will enable the mapping and management of over 10,000 ha of woodland in the UK
- ♥ Woodland environments flourish under appropriate management. Biodiversity increases and timber production becomes sustainable
- ♥ The Good Woods scheme is managed by our partners BioRegional and The Sylva Foundation

B&Q's Global Timber Policy

Protecting global forests for the future.

- ♥ We only source from forests certified as sustainably managed by independent schemes
- ♥ Every one of over 17,000 products is from a sustainable source
- ♥ Through the Chain of Custody process we are able to track product from forest floor to shop floor
- ♥ We work with FSC (Forest Stewardship Council), TFT (The Forest Trust) and PEFC (Programme for Endorsement of Forest Certification) to achieve our world class standards
- ♥ It's taken 20 years of commitment to reach the point where we can say 'every timber based product we buy is from a sustainable source'

To see the full One Planet Home Plan and how we are implementing it, please visit diy.com/eco

welcome...

Our Joinery collection is packed with fantastic new products featuring the latest styles and with great quality and low prices as standard, why shop anywhere else!

internal doors

At B&Q we have a complete range of internal doors in a variety of different styles and finishes, so there is sure to be something to suit your home and your budget.

Plus you can rest assured that all of our timber products have been responsibly sourced from well-managed forests around the world.

Fire doors

Look out for this symbol to see what door styles offer a fire door version. You can also find our full range of fire doors at www.diy.com

4 panel shaker oak veneer

How to choose your internal door

At B&Q we have completely transformed the process of buying an internal door to make it easier than ever to find your perfect door. From choosing what to buy, getting it home and fitting, we can help you every step of the way and not only that, all our timber is from sustainably managed forests, which means you get to do your bit for the environment too and the best bit; you won't pay a penny extra for the privilege!

Our simple 3 step process will guide you through the different options available to you and help ensure you make the right choice.

Step 1

choose your style

From contemporary to traditional, you're bound to find a look to suit you.

Choose from 10 different styles.

Step 2

choose your type

Space saving or fire safe, standard or glazed, we're sure to have a door solution for you.

Choose from 4 different types.

Step 3

choose your finish

Hollow core moulded to solid wood, get the quality you want to suit your budget.

Choose from 3 different finishes.

For a detailed guide to choosing your new door please turn to pages 8 and 9.

Some useful things to know...

Getting your door home

We now offer next day home delivery on all internal doors (48 hour on fire doors).

Next day delivery

Order before 3pm and we'll deliver your door the next working day.

Take home today

Some of our doors are available to take away, please check availability with your local B&Q store or go online at diy.com.

Van hire

Why not take advantage of our Hertz on Demand van hire service for only £14 an hour!

Ask in store for details, call our helpline on 020 7365 4199 or simply visit www.diy.com/hertzondemand

Fitting your door yourself

If you are planning to fit your new door yourself, have a look at our step-by-step guide on hanging an internal door, available at youtube.com/bandq

How to...
install a door

Watch our video at youtube.com/bandq

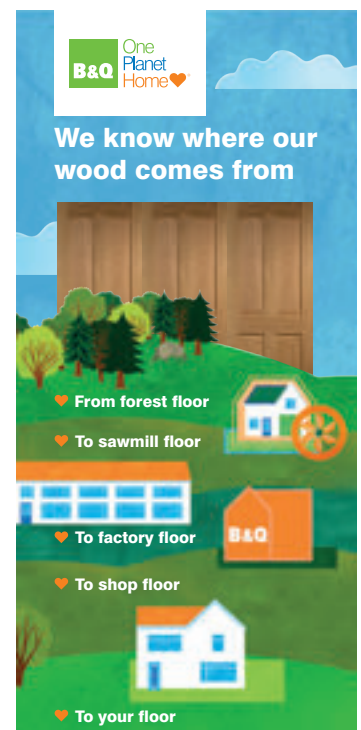

For more ideas and know-how visit diy.com/advice

You can do it

Have your door fitted

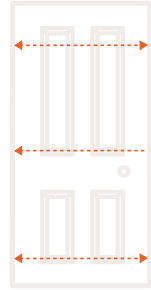

If you would prefer not to fit your door yourself, there are plenty of reputable tradesmen who could help. Simply visit jobsorted.com and search through their database of local registered tradesmen.

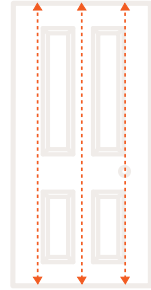

Measure your **size**

Before choosing your door, you need to measure your space and decide which size you need. Below is a quick step-by-step guide on how to measure up for your new door*. We also have a handy 'How to install a door' video on YouTube - visit [youtube.com/bandq](https://www.youtube.com/bandq)

1 Width: Measure in 3 points - top, middle and bottom within the frame opening, where the door will fit. The widest measurement determines the width of the new door.

2 Height: Measure again, in 3 points - left, centre and right within the frame opening, where the door will fit. The longest length determines the height of the new door.

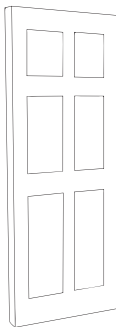

3 Adjustments: Once you have your measurements, compare them with the standard sizes available in your chosen door style. Select the most appropriate, remembering that you can reduce the size by planning the edges, but you can't make it bigger!

Choose your **style**

At B&Q choosing a door couldn't be easier. From traditional, cottage style doors to ultra modern, contemporary designs, we're bound to have something to suit both your home and your pocket. Simply select from the 10 styles available below.

*Please note that imperial measurements are approximate to the nearest inch. All measurements should be taken in millimetres to ensure accuracy.

Choose your **type**

Within each of our 10 door styles, we offer a choice of different door types to suit a range of different applications. Whether you want to brighten a room or are short on space, we'll have a solution for you.

Panelled

Our standard panelled door.

Glazed

These doors include glazed panels; perfect if you want to let more light into a room.

All glazed doors are made with toughened safety glass

Fire doors

For safety and peace of mind, fire doors give 30 minutes of fire protection*.

Look out for this symbol  throughout the brochure

Space saving

Bi-fold doors are ideal if you are short on space, as they need less room to open.

don't forget...

Fire doors must be installed when completing a loft conversion.

Choose your **finish**

To ensure you get the look you want, each of our door styles is available in a range of different finishes. From our value hollow core moulded doors, right through to our premium solid oak and walnut veneers, there is something for everyone. Some of our doors even come pre-painted.

Hollow core moulded

- great value for money
- ready to paint or buy ready painted
- woodgrain & smooth finishes available

Solid pine

- solid wood construction
- knotty pine, ready to stain or varnish
- clear pine, for the perfect paint finish

Solid oak/walnut veneer

- beautiful real wood finish solid door
- ready to wax, stain or varnish

*When fitted in accordance with manufacturer's instructions.

measuring up for your door...

It's important to get the height, width and depth of your door right - and for your door frame to be square and true.

Tip: buy the right size or slightly too big so you can trim to fit on site.

You can do it

Ideas and know-how for your home

The wood for our internal door range is responsibly sourced from sustainable forests. See page 2-3

internal room dividers

With our stunning range of French doors, door sets and folding and sliding doors, from traditional styles to ultra modern designs, you are sure to find an open plan living solution to suit both your room and your pocket.

10 lite white smooth glazed French doors (see page 35 for doors)

How to choose your internal room divider

At B&Q we have a range of different internal room dividers. For a more traditional look, you might want to consider French doors. If you are looking for a more modern, contemporary look, folding or sliding doors might be the option for you. Our versatile range of door frames and pair makers make choosing your perfect room divider an easy task.

Choosing the right room divider

Option 1

'Create your own' French doors

Create a stylish room divider by creating your own French doors using any of our internal doors.

- Measure your opening
- Pick your door style (choose any doors from our internal doors range)
- Add a universal frame (pine or hardwood) and pair maker (pine, white, hardwood or oak) to complete
- Don't forget to add your choice of hinges and handles

Option 2

French door sets

For a wider room dividing solution our French door sets are ideal. They come with matching sidelites which can be fixed or folding.

- Measure your opening
- Choose a fixed or folding design
- Pick your door style (choose from our range of 5 different designs)
- Add a universal frame (pine or hardwood) and pair maker (pine, white, hardwood or oak) to complete
- Don't forget to add your choice of hinges and handles

Option 3

Folding and sliding doors

For the ultimate in open plan living, our folding and sliding doors are not only stylish but quick and easy to install too.

- Measure your opening
- Decide which way you want your door to slide (to the left or the right)
- Pick your door style (choose from our range of 22 different designs)
- Add a matching architrave
- Don't forget to add your choice of hinges and handles

Choose any doors from our internal doors range - see pages 6-19

The wood for our room dividers range is responsibly sourced from sustainable forests. See page 2-3

CREATE
YOUR
OWN

French doors

Create a stylish room divider by creating your own French doors. Choose from our range of internal doors and simply add a frame and a pair maker

2 panel clear pine glazed French doors
(see page 29 for doors)

universal door frames...

One frame size suits all:

2 x 24" doors

+ pair maker = H1981 x W1232mm
+ pair maker + frame = H2007 x W1280mm

2 x 27" doors

+ pair maker = H1981 x W1384mm
+ pair maker + frame = H2007 x W1432mm

2 x 30" doors

+ pair maker = H1981 x W1536mm
+ pair maker + frame = H2007 x W1584mm

2 x 33" doors

+ pair maker = H1981 x W1688mm
+ pair maker + frame = H2007 x W1736mm

Pine*	3856536	£34.98
Hardwood**	5011944980476	£129

*Excludes architrave and hardware
**Includes architrave and excludes hardware

how it works...

It's easy to create an interior French door set with B&Q. You will need:

- 2 x internal doors of your choice
- 1 x universal French door frame
- 1 x door pair maker

Door frames

Our universal door frames for interior French door sets come sized to fit the largest doors in the range (33") making the overall external size of the frame H2007 x W1736mm. Simply cut the frame down to fit smaller doors in the range. For overall sizes based on different door widths, see guide and prices below.

For our full range of internal doors, see pages 6-49.

Door pair maker

You need a 'pair maker' to join 2 internal doors to make a French door. Available in a choice of finishes to match your door and can be fitted to suit your preference re which door opens first, inwards or outwards.

Pine	3856598	£9.98
White	5011944980551	£14.98

don't forget

Our doors are sold without handles so you have the flexibility to choose the style and finish. See our full range on pages 60-61

This page contains just a few examples. You can create a set of French doors from any of our internal doors. For our full range, see pages 6-49.

CREATE
YOUR
OWN

French door sets

For a wider room dividing solution, choose from our French door sets, complete with narrow sidelite panels. Available in fixed and folding designs

6ft room dividing
fixed option...

2 fixed narrow sidelite panels, 2 doors

8ft room dividing
fixed option...

2 fixed panels, 2 doors

how it
works...

Fixed solution

Our standard interior French doors, but with the addition of a fixed panel on both sides to fit a wider aperture. Choose the 6ft (approx) option with narrow (W290mm) fixed panels or the 8ft (approx) option with fixed panels that are the same width as the doors (W579mm). Doors and narrow sidelite panels are both 1981mm high.

6ft fixed option external frame size - H2007 x W1846mm
8ft fixed option external frame size - H2007 x W2424mm

Folding solution

4 doors of equal width (W579mm) that are hinged together to open up in the middle like French doors, with the added flexibility of being able to fold them right back to create a full opening too.

8ft folding option external frame size - H2007 x W2424mm

Narrow sidelite panels H1981 x W290mm

Door panels H1981 x W579mm

Room dividing frames are available in pine and hardwood and door pair makers in pine, hardwood and oak to match the door finishes in our range. See page 52 for details of our frames and pair makers.

FLEXIBLE
OPEN PLAN
SPACE

folding sliding doors

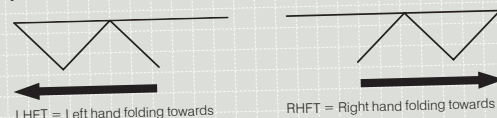

A seamless room dividing solution that's not just stylish but quick and easy to install

how it

works...

- bottom rail folding system. No issues with having to support the weight of the doors with the frame head fixing
- the frame is supplied complete with a threshold and track which does not require to be sunk into the existing floor – easier fitting method
- 4 frame widths available – 1825mm, 1918mm, 2146mm and 2374mm (depending upon door style) – they will all fit wall thicknesses of 115mm up to 150mm
- hardwood architrave is available to order separately with hardwood and oak veneered tri-fold room dividers
- all doors are pre-machined for the hardware, (excluding latch and handles) and supplied unfinished ready to be decorated to the colour of your choice
- the internal tri-fold comes complete with a matching frame and all hardware (excludes door handles and latch)
- all glazed doors have toughened safety glass to BS6206 and matching room doors are also available
- all prices include home delivery

don't forget

To complete your project see our door handles on pages 60-61.

Doing our bit for forests

Behind every wooden door is our Forest Friendly promise.

- ♥ Always from a sustainable source
- ♥ Always replenishing what's taken
- ♥ Helping to protect forest livelihoods
- ♥ Helping to protect forest habitats

We are proud to say that every single product in our stores that's made using wood (from decking to wallpaper) comes with an outstanding Forest Friendly pedigree.

We insist that every one of our 17,000 wood based products comes from a source that's independently verified as sustainable. It's taken 20 years of hard work and close partnership with experts in sustainable timber (FSC, TFT, PEFC) to develop these market leading standards.

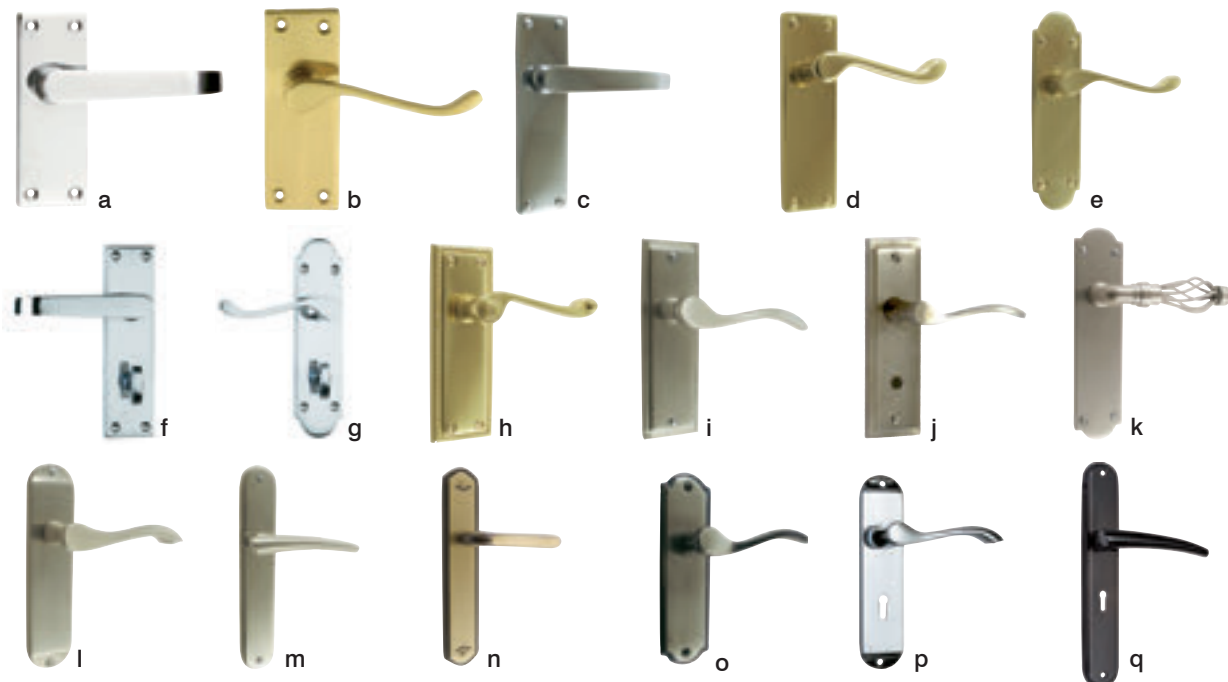

What's more you won't pay a penny extra for Forest Friendly products – you'll always get great B&Q prices, with ethical value rolled in.

To see the full One Planet Home plan and how we are implementing it, please visit: [DIY.COM/ECO](https://www.diy.com/eco)

about

radiator covers...

Ugly, damaged or unsightly radiators can spoil the look of even the most beautifully decorated room.

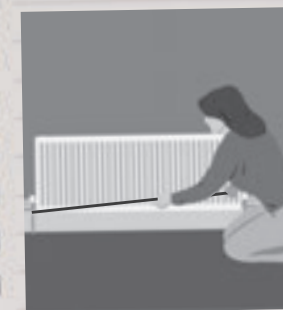

B&Q radiator covers offer the perfect solution to conceal old and unfashionable radiators, whilst simply and effectively adding style to your home.

Radiator covers are supplied for you to assemble and fit. It's an easy job and should take just a few minutes to do. Full instructions are provided with your cover.

HOW TO

CHOOSE THE RIGHT COVER

Once you have decided on the style of cover you want for your home, it's important to measure your radiator correctly to ensure you purchase the correct size cover. By following the simple steps outlined below, you will be able to buy the correct cover knowing that it will fit your radiator.

Step 1 Measuring the width of your radiator

Measure the width of your radiator, ensuring that the tape stretches from the outside edge of the valve. The internal width of your required cover must be bigger than this measurement.

Step 2 Measuring the height of your radiator

To measure the height of your radiator, simply place one end of the tape on the floor and measure to the top edge of the radiator. The internal height of your required cover must be bigger than this measurement.

Step 3 Measuring the depth of your radiator

The depth of your radiator is obtained by placing the tape on the wall and measuring to the front face of your radiator. The internal depth of your required cover must be bigger than this measurement.

MAKE AN
ENTRANCE
GRAND

stair balustrade

With such a huge choice of styles, materials and detail options at outstanding value, it's easy to totally transform your hallway with a heavenly new staircase

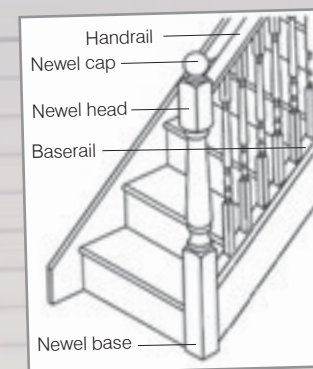

HOW TO CHOOSE STAIRPARTS

Step 1 Select your spindle design & finish from the table below.

Step 2 Use pages 70-91 to select your components.

The online stairplanner tool at www.stairplanner.com is a great way to help plan your project in three easy steps. Choose from two different user modes - 'Easy mode', which allows you to have fun experimenting with different styles, and detail mode; which allows you to plan exactly what parts you need for your own staircase.

Step 3 Select components in-store or order online.

MODERN
STAIR
DESIGN

FUSION® balusters

An innovative mix of modern metallic finishes and natural timbers. This revolutionary balustrade system is extremely straightforward to install

about

FUSION® fix system...

Exceptionally easy to fit and intelligently designed, the FUSION® system uses clever metal components and pre-cut, pre-finished parts to make installation quick and easy. The rails and newels are connected using a number of alloy handrail connecting brackets which allow almost every configuration to be created. FUSION® stair balustrade can be fitted in one weekend, making it a great choice for any DIY enthusiast.

spiral staircases

A range of quality spiral staircases to suit any home improvement project, these staircases are ideal for small spaces and loft access

Oak 70 spiral staircase

A contemporary spiral staircase to suit small spaces. Constructed from white painted steel and solid oak treads.

- ideal for loft access, whether for storage or loft conversion
- neutral colours to suit any interior design or colour scheme
- solid oak treads for a luxurious finish
- clockwise or anti-clockwise rotation decided at installation
- 2 year manufacturer's warranty

Oak 70 spiral staircase

- available in a choice of 3 widths
- adjustable to suit heights from 252 - 286cm

K26072000	W110cm	13 rises / 12 treads	8023102021645	£1399
K26073000	W130cm	13 rises / 12 treads	8023102021652	£1499
K26074000	W150cm	12 rises / 12 treads	8023102021669	£1599

Oak 70 balustrade kit

- 1.2 metre balustrade kit
- constructed from white painted steel
- handrail constructed from PVC with aluminium core
- adaptable to suit curved and straight openings, and mezzanines

Oak 70 balustrade kit

K26049000	8023102002934	£149
-----------	---------------	------

NICE spiral staircase

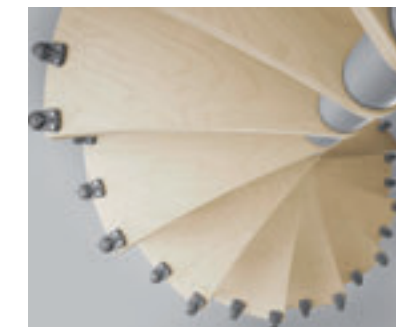

A contemporary spiral staircase to suit small spaces. Constructed from painted steel and birch plywood.

- ideal for loft access, whether for storage or loft conversion
- neutral colours to suit any interior design or colour scheme
- choice of 3 widths, ideal for fitting into small spaces
- clockwise or anti-clockwise rotation decided at installation
- landing adaptable for mezzanine floors and circular/ square apertures
- 2 year manufacturer's warranty

NICE spiral staircase

- available in a choice of 3 widths
- adjustable to suit heights from 240 - 286cm

K50057000	W110cm	13 rises / 12 treads	8023102021676	£899

NICE 2 spacesaver staircase

A contemporary spacesaver staircase to suit small spaces. Constructed from painted steel and birch plywood.

- alternating tread system uses the minimum of floor space
- treads allow for a full height stair to be installed, whilst only taking up 1.4 metres of floor space
- ideal as a substitute for a pull down loft ladder
- neutral colours to suit any interior design or colour scheme
- 2 year manufacturer's warranty

Inventive tread system with alternating treads, to fit into the smallest of spaces

NICE 2 spacesaver staircase

- standard kit of 11 rises / 10 treads will suit heights of 209cm - 242cm
- greater heights can be achieved by purchasing extra rises / treads

K50060000	11 rises / 10 treads	H209 - 242cm	8023102021706	£599
K50061000	12 rises / 11 treads	H228 - 264cm	8023102021713	£649
K50062000	13 rises / 12 treads	H247 - 286cm	8023102021720	£699

staircases...

frequently asked questions

What size opening do I need for a spiral staircase?

You need to make the opening 50mm larger than the spiral staircase, to allow for clearance and space for your fingers when holding the handrail. You can make the opening round or square - a 1500mm staircase would require an opening 1550mm round, or 1550mm x 1550mm square.

Do I need to know the floor to floor height?

All of the spiral and spacesaver staircases are adjustable for height, but the height will be required to ensure the correct kit is ordered.

Assembling the staircase

All the stair kits have been designed to be easy to assemble. Most kits come with a DVD or DVD-ROM which takes you through the installation process, as well as a set of written instructions. Everything is generally pre-machined and designed to go together like flat-pack furniture.

Can I fit directly onto floorboards?

You can fit directly onto floorboards. We recommend that extra wood is placed under the floorboards, just for extra stability.

Can I use with underfloor heating?

As the staircase is bolted directly into the floor, you will not be able to fit onto floors that already have underfloor heating. If you are fitting underfloor heating, you will need to leave a 21cm diameter circle free of underfloor heating to accommodate the base plate of the staircase.

How are the items delivered?

Large items, such as spiral staircases, are delivered on pallets, so can only be delivered kerbside, as close to your property as access will allow. The carrier cannot carry the goods into your property.

don't forget...

NICE 2 spacesaver additional railing

- constructed from grey painted steel
- allows the NICE 2 spacesaver staircase to have railing protection on both sides
- ideal for mezzanines

NICE 2 spacesaver additional railing

external doors

At B&Q we have an extensive choice of external doors in a range of finishes and styles.

From our stunning range of traditional softwood and hardwood timber doors, to low maintenance, high security and energy efficient PVCu, GRP and composite doors, we are bound to have a door to suit your needs.

How to choose your external door

At B&Q we have made choosing an external door easier than ever. Whether you're after a timber door for a more traditional look, or a modern energy efficient PVCu door, our step-by-step guide will help you make the right decision and with plenty to choose from, you're sure to find the right door for you.

Step 1

choose your type

If you're after a traditional look, or a simple replacement into an existing frame, then our timber range is for you.

For a modern, low maintenance and hard wearing alternative, our energy saving range has plenty to choose from.

Step 2

choose your style

Our timber doors come in 8 fantastic styles for you to choose from. Just pick your favourite!

Energy saving doors are available in PVCu, composite and GRP styles. The table on the next page will help you choose the right style for you.

For a detailed guide to choosing your new door please turn to pages 98-99.

Some useful things to know...

Getting your door home

Most of our external doors can now be delivered in 2 working days. Please check online at diy.com or with your local store for the latest information.

Take home today

Some of our doors are available to take away, please check availability with your local B&Q store or go online at diy.com.

Van hire

Why not take advantage of our Hertz on Demand van hire service for only £14 an hour!

Ask in store for details, call our helpline on 020 7365 4199 or simply visit www.diy.com/hertzondemand

Fitting your door yourself

If you are planning to fit your new door yourself, have a look at our step-by-step guide on hanging an external door, available at youtube.com/bandq

How to...

install a door

Watch our video at youtube.com/bandq

For more ideas and know-how visit diy.com/advice

B&Q

You can do it

Have your door fitted

If you would prefer not to fit your door yourself, there are plenty of reputable tradesmen who could help. Simply visit jobsorted.com and search through their database of local registered tradesmen.

B&Q One Planet Home

Our Forest Friendly Promise

- Always from a sustainable source
- Always replenishing what's taken
- Helping protect forest habitats
- Helping protect forest livelihoods

Measure your size

Before choosing your door, you need to measure your space and decide which size you need. Below is a quick step-by-step guide on how to measure up for your new door*. We also have a handy 'How to install a door' video on YouTube - visit [youtube.com/bandq](https://www.youtube.com/bandq)

- 1 Width:** Measure in 3 points; top, middle and bottom and take the smallest measurement and deduct 10mm
- 2 Height:** Measure again, in 3 points; left, centre and right and take the smallest measurement and deduct 10mm. Measure to the underside of the existing cill, unless it is not going to be replaced e.g. a concrete cill
- 3 Diagonals:** Ensure the opening is square by measuring the diagonals as shown in red. There should be no more than 5mm difference between each measurement

- 4 Repeat** the process from the inside of the door from plasterwork, make a note of the smallest measurements, as before

Choose your type - energy saving doors

We have a range of energy saving doors to choose from, from PVCu to composite and GRP.

PVCu

PVCu doors have a smooth white finish and include security features. They are low maintenance and have a high resistance to weathering.

- White smooth finish
- Door & frame
- Built-in security features
- Back door options
- Low maintenance

Composite

Composite doors are made from a variety of materials including PVC, wood and GRP, resulting in a strong, secure and stylish door.

- White wood effect finish
- Door & frame
- Built-in security features
- No back door options
- Low maintenance

GRP

GRP (glass reinforced plastic) doors have the appearance of timber. They are hardwearing, energy efficient and are highly weather resistant.

- Coloured wood effect finish
- Door & frame
- Built-in security features
- No back door options
- Low maintenance

Doing your bit

Badly fitting doors & windows will cost you money annually as well as causing uncomfortable draughts.

As warm air escapes through gaps, the cold air creeps in, making your heating work harder and cost more.

Keep your home cosy and save money by fitting new energy efficient models. You'll reduce your carbon footprint too.

*Please note that imperial measurements are approximate to the nearest inch. All measurements should be taken in millimetres to ensure accuracy.

Choose your type - timber doors

We have a stunning range of timber doors to choose from, from traditional glazed and country cottage styles to ultra modern and contemporary designs.

Timber

Traditional timber door style with a grained appearance. Solid timber construction ready to paint or stain. Can fit to an existing frame.

- Beautiful real wood
- Range of finishes
- Door only
- High quality construction
- Triple glazed doors in range
- Back door ranges
- Regular treatment maintains its natural beauty and finish

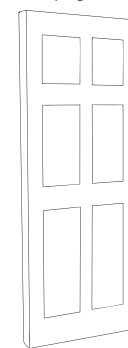

Choose your style

We offer a range of 8 different styles of timber door. From traditional cottage styles to more contemporary designs, we are sure to have a door to suit both your home and your pocket.

Doing our bit for forests

All the wood used for our timber doors is from sustainably managed forests. We only use suppliers who can prove the timber they use comes from a reliable and independently certified source.

From the forest...

The exact location of each tree felled is recorded, the tree receives a unique number and the stump is tagged. Harvested trees are always replaced; in fact we aim to plant more than we fell.

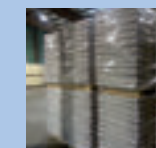

...to the manufacturer

Our manufacturers only buy from mills that can demonstrate their timber is sustainably grown. Every single piece of wood to make our timber doors, however small, is from a forest that is managed for the long term.

...to the mill

When the tree is delivered to the mill for processing its number is recorded and once the tree has been processed it is identified as sustainably grown timber.

...to B&Q

Twenty years of commitment to protecting forests means that our timber doors always come from a sustainable source.

FRONT & BACK DOORS

door accessories

B&Q door frames are supplied in kit form for ease of transport and assembly. They are designed to be easily assembled with the minimum of skill and basic tools. Available to suit all popular external door sizes, these frames can be decorated to suit the chosen finish of your door. Door frames are available as Traditional and Elite hardwood, and value hardwood and softwood, to suit your door choice

See pages 116-119 for a selection or view the full range online at diy.com

CREATE A FEATURE ENTRANCE

PVCu **sidelites**

These provide the ideal solution where your door opening is larger than a standard PVCu door set. Instead of bricking up the extra space, a sidelite can be fitted either side, or on both sides of the door depending on the space available, creating a stunning entrance feature. Any PVCu front door set can be combined with sidelites

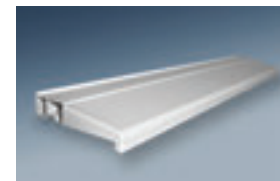

Residential narrow sidelite
H2055 x W300mm 3847145 **£169**

Sidelite glass is obscure

Residential sidelite
H2055 x W600mm 3847152 **£219**

Door cills

- If fitting a cill, you must remember to add 30mm to the door frame height dimension
- door cills can be cut to size to suit the width of your project

1500mm	3332207	£22.98
2000mm	5039248000331	£24.98
3000mm	3847053	£29.98

about

PVCu residential sidelites...

All dimensions relate to external frame dimensions. The cill adds 30mm to the height dimension.

project consists of

■ 1 x PVCu residential door set
■ 1 x narrow residential sidelite
External frame dimension width = the door set width + 300mm
External frame dimension height = 2055mm excluding cill

■ 1 x PVCu residential door set
■ 2 x narrow residential sidelites
External frame dimension width = the door set width + 600mm
External frame dimension height = 2055mm excluding cill

■ 1 x PVCu residential door set
■ 1 x residential sidelite
External frame dimension width = the door set width + 600mm
External frame dimension height = 2055mm excluding cill

■ 1 x PVCu residential door set
■ 2 x residential sidelites
External frame dimension width = the door set width + 1200mm
External frame dimension height = 2055mm excluding cill

Sidelites come complete with a jointing strip to join the sidelite to the door frame.

external French & patio door sets

At B&Q we have an extensive range of external French and patio door sets in a variety of finishes and styles, from hardwearing PVCu to either unfinished or pre-finished timber. With French doors starting at 1200mm wide and folding patio doors stretching right up to 4800mm we are sure to have something to suit your home.

Thermal efficiency and compliance with building regulations

National building regulations set out the requirements for thermal efficiency of doors for new builds, extensions, replacement and refurbishment. In England and Wales these requirements are set out in Document L of the building regulations, in Scotland in Section 6 and in Northern Ireland in Part F.

It is the responsibility of the installer to ensure that all products, materials and installation standards comply with current building regulations. Replacing a window or door set requires the instruction to be either under Building Control approval or by a FENSA (or similar scheme) registered installer.

The U Value is a measure of the rate of heat loss through a material - the lower the figure, the better the thermal efficiency of the product. U values are shown for all applicable products - note that the products must be installed into the frame supplied to attain these U values.

“look out for our coordinating French and patio door sets”

Patio door sets - see pages 122-131

French door sets - see pages 132-141

How to choose your patio door set

With traditional and practical sliding patio doors and ultra modern folding and sliding doors in widths up to 4.8m, bring the outdoors indoors - our step by step guide will show you how.

Step 1

measure up

Choose from the popular size options available to suit openings from 1.5 to 4.8 metres wide.

Step 2

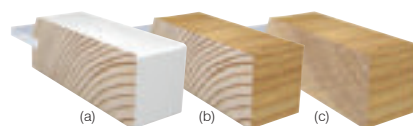

choose your type

- Sliding door set (PVCu only)
- Folding and sliding door set (PVCu or timber options)

Step 3

choose your finish

- White PVCu
- ^(a) Timber - pre-finished white
- ^(b) Timber - oak veneer†
- ^(c) Timber - solid laminated oak†

Measure up

Before choosing your patio door you need to measure your opening and decide which size option you need. Below is a quick step by step guide on how to do this:

1 Width:

Measure in 3 points - top, middle & bottom. Ensure the frame fits at the smallest point.

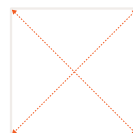

2 Height:

Measure again in 3 points - left, centre and right. Ensure the frame fits at the smallest point.

3 Diagonal:

Ensure the opening is square by measuring the diagonals.

Timber - oak veneer

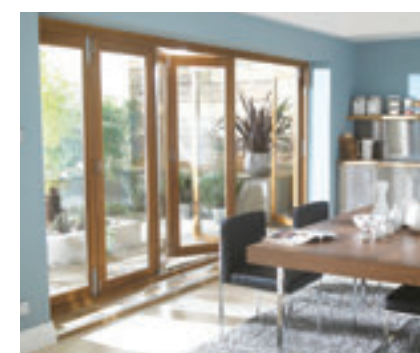

Timber - pre-finished white

Choose your type

	Sliding door set (PVCu only)	Folding and sliding door set

Also available as French doors - see page 134

about solid laminated oak

timber folding sliding doors...

A modern concept in patio doors, the Solid Laminated Oak combines the style and elegance of a classic French door with the space-saving benefits of a sliding door. The sliding and folding mechanism lets you open the doors fully – and when they're closed, the full height glazing lets in maximum light. So even on cold and wintry days you'll feel the benefits.

Whether your home is traditional or contemporary, these timber folding sliding doors will enhance it beautifully. Supplied ready to stain to match your colour scheme.

- manufactured from high quality oak laminated timber
- oak veneer frames
- beautifully finished with brushed stainless steel hardware (products marked with a star are not supplied with a handle)
- 54mm thick door leaves
- Wide choice of opening configurations
- low level sill for ease of access
- multi-point locking option
- top hung hardware provides effortless operation
- double glazed with 24mm low E insulating units
- 10 year manufacturer's guarantee against manufacturing defects
- 30 year guarantee against rot and fungal attack on all external timber components

HOW TO ORDER YOUR DOOR SET

Step 1 Make your product selection
Step 2 Decide on the door hanging
Step 3 Choose the hinge position as viewed from the outside

Right hand hung (RH) As viewed from the outside hinges on the right.

Left hand hung (LH) As viewed from the outside hinges on the left.

Step 4 Take the product code, description and quantity into store and order with a member of staff. Alternatively order online at www.diy.com

All measurements relate to external frame dimensions.

Height dimensions include a cill.

Left hand (LH) and right hand (RH) folding indicates the direction the doors will fold to as viewed from the outside.

SIDELITES SOLUTIONS

PVCu French sidelites

These provide the ideal solution where your door opening is larger than a standard set of French doors. Instead of bricking up the extra space, a sidelite can be fitted either side (or both sides) of the doors depending on the size of the space available

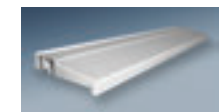

U-value of 1.8W/m²k

Sidelite glass is clear

about

U-values...

The U value is a measure of the rate of heat loss through a material – the lower the figure the better the thermal efficiency of the product. U values are shown for all applicable products – note that the products must be installed into the frame supplied to attain these U values.

a. Wimborne narrow sidelite	b. Wimborne standard sidelite	c. Wimborne vented sidelite
H2020 x W300mm 3847046 £129	H2020 x W600mm 3171219 £155	H2020 x W600mm 3847077 £225

Door cills and ventilators can be cut to suit the width of your project. Sidelites can only be used with Wimborne French doors.

TRANSFORM
YOUR
ENTRANCE

timber porch canopies

These stylish, innovative timber porch canopies will transform the entrance to your home. Manufactured to a high standard and tested by independent structural engineers, they give a professional result every time

Flat roof canopy

Flat roof canopy

- this is a practical and versatile porch solution with fully adjustable gallows brackets, suitable for doorways from 1200mm to 1600mm maximum

H1124 x W1736 x D605mm 5000473032275 **£99**

Apex canopy

- available in two sizes
- the gallows' brackets can be adjusted to take into account unique brickwork, lighting or window features

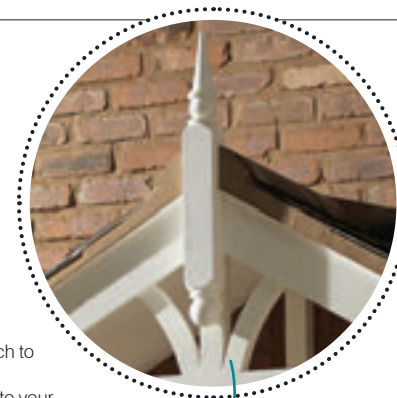

1200mm
H1190 x W1559 x D605mm 5000473032251 **£129**

1600mm
H1305 x W1960 x D605mm 5000473032268 **£159**

about

timber porch canopies...

These pine canopies should be pre-treated with a suitable exterior grade preservative prior to installation. They can then be painted, stained and tiled to your required finish. All fitting instructions are included.
Note: roofing, fascias, finishing components, wall fixings and exterior glue are not included

Porch finial

- L690 x W75 x D75mm
- add a traditional, decorative touch to apex canopies
- simply cut the finial and plant onto your finished, tiled porch or alternatively, pre-fix the finial to the porch and tile round it

5000473032329 **£25.98**

The wood for our porch canopies range is responsibly sourced from sustainable forests. See page 2-3

How to choose your garage door

A stylish new garage door can enhance your home, increasing its value and security. Choose from timber or powder coated steel in a range of designs, colours and mechanisms to suit your taste and needs; whether it's for new build or replacement. You can even make them remote control.

Choosing the right garage door

Timber doors

A traditional style timber door which opens in the same way as a standard door.

- 14mm tongue & groove redwood
- unfinished, ready to paint
- requires the most front clearance to open
- frame available separately

Framed retractable doors

A one piece panel door which fully retracts back into the garage roof space.

- powder coated steel or impact resistant ABS finishes
- requires the most front clearance to open
- includes 70mm frame, handle and lock
- compatible with remote control automation (sold separately)

Insulated sectional doors

A fully insulated sectional door which lifts vertically into the garage roof space.

- insulated powder coated steel
- space saving, requires no front clearance
- fully sealed providing high levels of security as well as acoustic and thermal insulation
- includes 90mm frame, handle and lock
- compatible with remote control automation (sold separately)

Insulated roller doors

A fully insulated roller door which lifts vertically behind the garage opening.

- insulated powder coated aluminium
- space saving, requires no front clearance
- fully sealed providing high levels of security as well as acoustic and thermal insulation
- includes 90mm frame, handle and lock
- automation included as standard

Jersey retractable garage door

Note: All sizes quoted in this brochure are for the door only. For overall frame dimensions please add 140mm (W) and 70mm (H) for our framed retractable doors. Add 180mm (W) and 90mm (H) for both the insulated sectional and insulated roller doors. For timber doors please add 137mm (W) and 71mm (H).

about

PVCu windows...

NOTE: 1m, 1.5m and 2m cills available to buy separately for all windows. The cill will add 30mm to the window height.

1m x 150mm cill	5039248000324	£16.98
1.5m x 150mm cill	3332207	£22.98
2m x 150mm cill	5039248000331	£24.98

Frame extenders can be used to increase the size of your window by simply clipping them on to the profile. This is a low cost alternative to having windows made to measure.

1m x 10mm frame extender	5039248000348	£6.98
2.1m x 10mm frame extender	5039248000737	£7.98
1m x 20mm frame extender	5039248000362	£7.98
2.1m x 20mm frame extender	5039248000744	£9.98

Ventilators are available to help reduce condensation and also achieve building regulations where necessary. Ventilators will add 44mm to the window height

620mm PVC head vent	5039248000386	£19.98
905mm PVC head vent	5039248000393	£24.98
1190mm PVC head vent	5039248000409	£22.98
1760mm PVC head vent	5039248000416	£29.98

Make good to the inside or outside of your walls with a matching PVCu profile for that neat finishing touch.

2.4m x 45mm PVC window trim	5039248000799	£7.98
-----------------------------	---------------	-------

NOTE: Number of Georgian bars is dependent on size of window.

roof windows

Roof windows open up new possibilities for your home. They allow you to let light and fresh air in to previously dark areas such as loft spaces and to explore a world of new design options with extensions and new builds

How to choose your roof windows

Step 1

Choose size/quantity

Before you decide, here's a few things to think about:

- the size and shape of your room:
 - A deep room will benefit from windows positioned higher in the roof
 - A wider room will benefit from a series of windows installed at regular intervals
- the more daylight a room receives, the bigger it will feel
- our roof windows come in many sizes - you can even combine them

W550 x H780mm

W780 x H1400mm

W550 x H980mm

W1340 x H980mm

W550 x H1180mm

W940 x H1400mm

W780 x H980mm

W1140 x H1180mm

W660 x H1180mm

W940 x H1600mm

W780 x H1180mm

W1340 x H1400mm

Step 2

Choose your opening type

There are two types in our range.

Top-hung:
Opens outwards for an unobstructed view and feeling of extra space.

Centre-pivot:
The top control bar makes it easy to open, even with furniture under the window.

Step 3

Choose your glazing

All glazing options, including those providing greater heat insulation and added strength and protection, can be found online at diy.com.

Step 4

Choose your material/finish

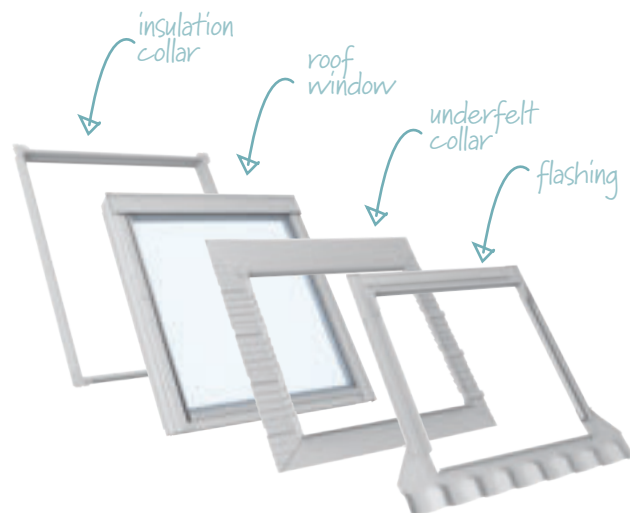

White polyurethane*

- perfect for contemporary interiors and white ceilings
- ideal for humid rooms, such as kitchens or bathrooms. The polyurethane mould has no visible joints therefore ensures a moisture resistant finish
- requires less maintenance than lacquered natural pine, ideal for out of reach areas
- high quality moulded polyurethane with insulated timber core

Lacquered natural pine

- ideal for a traditional interior
- high quality natural pine
- protective clear lacquer helps to preserve the timber of the window

Step 5

Choose the right 'flashing'

All roof windows must be fitted with a 'flashing' which provides a weather-tight finish around the window. They are available for both slate and tiled roofs, in a choice of standard or recessed* options. Recessed installations provide a sleek streamlined finish and are more energy efficient.

Step 6

Choose your insulation collar*

An underfelt / insulation collar ensures a weather tight seal, reduces heat loss and eliminates cold bridges. Again, this helps you to meet building regulations.

The vapour barrier helps prevent the build-up of condensation in the roof construction. Ideal for making your installation air tight.

Step 7

Choose your blinds

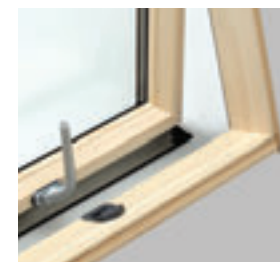

Control the amount of daylight and temperature within your room with a specially designed blind. Available in a range of colours and sizes.

See pages 166-167 for more details.

*VELUX only.

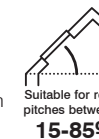

GEOM centre-pivot

At B&Q we've got a wide range of windows especially made for roofs – such as these centre-pivot designs – perfect for loft conversions or extensions

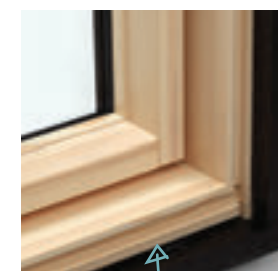

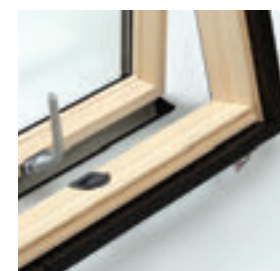

Solis

- U-value: 1.6W/m²K
- natural pine with a clear lacquer finish for added protection
- reversible 180° window allows cleaning from the inside
- trickle vent for fresh air circulation

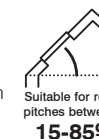

H780 x W540mm	5052931117604	£149
H980 x W540mm	5052931117642	£159
H980 x W740mm	5052931117635	£169

Luna

- U-value: 1.4W/m²K
- natural pine with a clear lacquer finish for added protection
- reversible 180° window allows cleaning from the inside
- trickle vent for fresh air circulation
- built-in insulation collar to reduce heat loss

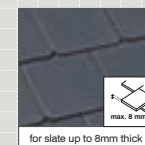

H780 x W540mm	5052931117390	£179
H980 x W540mm	5052931117406	£189
H980 x W740mm	5052931117413	£199

The insulation collar in our Luna windows means it loses less heat, making it more thermally efficient, giving it a lower U-value

don't forget...

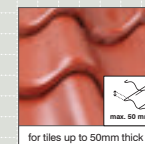

All roof windows must be fitted with a 'flashing' to provide a weather-tight finish. Available in 2 types to suit slate or tiled roofs. Choose the right flashing for your GEOM roof window.

H980 x W740mm	5052931122134	£54.98

ROOF WINDOWS

VELUX® centre-pivot

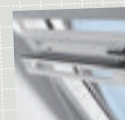

Our most popular roof window option; the centre-pivot is a versatile design that opens 180° allowing masses of light into your room, ventilates even when closed and gives easy access for cleaning

how it works...

High quality, maintenance-free hinges allow the window to pivot at the centre point

Discreet, stylish top control bars make the window easy to open

Built-in ventilation flap lets fresh air in, but filters out dust and insects

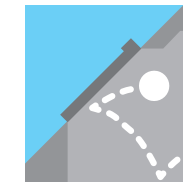

Patented corner brackets ensure a fast and secure installation

At VELUX, windows are tested in Northern Europe's largest wind and rain simulator, where some of the standards are stricter than international standards.

don't forget...

All roof windows must be fitted with a 'flashing' to provide a weather-tight finish. Available in 5 types to suit slate or tiled roofs. Choose the right flashing for your Velux roof window from the range on page 164.

ROOF WINDOWS

VELUX® top-hung

Our top-hung windows are hinged at the top - this enables the best uninterrupted view and really opens up your living space. The large opening makes it particularly suitable for use as an emergency escape too

how it works...

Hinged at the top, making it the largest opening of all our roof windows

Handle located at the bottom for easy opening and extra head room

Built-in ventilation flap lets fresh air in, but filters out dust and insects

Patented corner brackets ensure a fast and secure installation

Suitable for use as a fire escape in the sizes indicated by this symbol ▲

don't forget...

All roof windows must be fitted with a 'flashing' to provide a weather-tight finish. Available in 5 types to suit slate or tiled roofs. Choose the right flashing for your Velux roof window from the range on page 164.

▲ Sizes suitable for emergency escape requirements.

The wood for our timber roof windows range is responsibly sourced from sustainable forests. See page 2-3

VELUX® window flashings

single window flashings...

VELUX flashings integrate with the roof covering to provide a weather-tight finish around the window. Options are available for virtually any roofing material.

- ensures weather-tight installation of all VELUX roof windows
- available in grey aluminium

VELUX® insulation collars

VELUX roof windows can be installed in any kind of roofing material and roof pitch. We recommend you use a qualified installer to ensure your new VELUX windows are fitted to the increasingly stringent building regulations for insulation and air tightness

Supplied complete with underfelt collar, the insulation collar:

- insulates around the roof window frame, reducing heat loss and eliminating cold bridges
- makes insulating and installing the window easier
- choose the right size to suit your window
- click fittings for fast and accurate assembly

insulation collars...

In conjunction with the flashing, an underfelt / insulation collar ensures a weather tight seal, reduces heat loss and eliminates cold bridges. The vapour barrier helps prevent the build-up of condensation in the roof construction. Ideal for making your installation air tight.

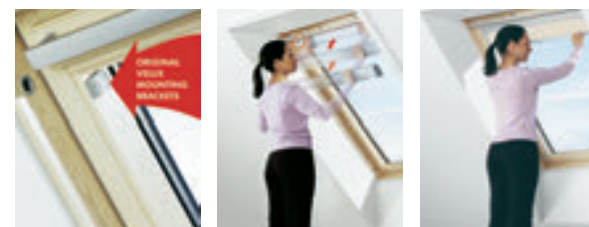

KEEP
LIGHT
OUTblackout **blinds**

Blackout blinds give the best total darkness during both night and day

VELUX *Pick&Click!*

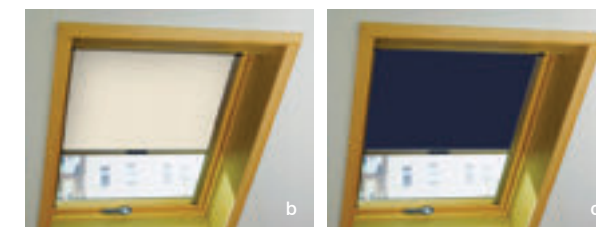

- VELUX roof windows are pre-fitted with brackets to make fitting your blinds easy - blackout, roller, pleated or Venetian
- to select the right blind, first check the window type and size from the data plate on the top edge of your window
- for the full range of VELUX blind colours and patterns visit diy.com

ROOF WINDOWS

VELUX® sun tunnels

A great innovation, a sun tunnel brings natural light into places you never thought it could reach; including windowless bathrooms, corridors or cupboards. Choose rigid or flexible 'tunnels' to suit your application

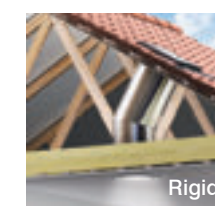

Before

After

Flexible

Rigid

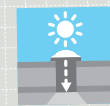

how it works...

works...

Connected to a 'window' in the roof, light travels through a tunnel into your room

Choose a rigid or flexible tunnel for roof pitches 15° – 60°

Ideal for roof pitches 0° – 60° where it's not possible to fit a standard VELUX flat roof window

- Clear and Clean coating keeps glass cleaner for longer
- easy to install with integral flashing
- double layer acrylic ceiling diffuser

Rigid sun tunnels

■ recommended for maximum light

10" - 250 x 370mm	tile	5702325436018	£288
10" - 250 x 370mm	slate	5702325464363	£288

ways to pay

At B&Q you can pay by Visa, Mastercard, Maestro debit and credit cards.

Price promise

If you find any product even 1p cheaper somewhere else... we'll refund the difference and give you an extra 10% off the lower price.

We're so confident our prices in store are cheaper than our competitors, that if you buy a product from us and find the same product (or the equivalent in the case of B&Q Brand) available locally (within a 10 mile radius) for less – even if it's a sale or special offer price – we'll not just match that price but we'll beat the lower price by a further 10% for your trouble.

All we ask is that the lower price is generally available to any potential customer on the day that you call back, within 14 days of purchase, with a proof of purchase.

The product must be available to the general public. We do not Price Promise against:

Retail, Wholesale or Warehouse Clubs requiring membership, Internet or mail order companies, TradePoint and companies within the Kingfisher Group e.g. Screwfix, Services e.g. Installation, Delivery Charges and Chargeable Cutting Service, Staff Discount Card holders (including Group discount) can have a Price Promise or use their Discount Card, not both. TradePoint does not operate a price match policy with our competitors. (TradePoint prices are lower or level with B&Q).

Delivery

For product availability and delivery information please visit diy.com, call 0870 0101 006 or speak to a member of staff in store.

Delivery from our specialist delivery team

Goods ordered online at diy.com

A £5 flat rate delivery fee applies to all home delivery orders placed on diy.com. This applies to all items, including those available for next day delivery.

Reserve & Collect

Reserve online and collect in-store. Place your order from thousands of products and we'll have it ready for you the following day. For more information, visit diy.com/reserve

*Delivery charges apply. Delivery charges and availability may vary in Northern Ireland and offshore stores for some products marked for home delivery. Some items may only be available for collection from store and some items may not be available to purchase online. You will be advised at the time of placing your order.

†† Charges refer to the value of goods being delivered and exclude services.

Product detail

All products are subject to availability. All specifications are correct at time of print. Whilst we try to ensure accurate colour representation, please be aware that the photographic process may sometimes alter colours. Some items in our photographs are included for display purposes and are not necessarily intended to be installed as shown with regard to proximity. Please refer to the instructions supplied with your product before installation. A summary of this brochure is available in Braille, large print or on audio cassette. Please ask at your local store for details or email us at diversity@b-and-q.co.uk

Flexible finance

At B&Q we have a number of different finance options to suit your needs which could help you fund your purchase.

To see how our finance products could help make your dream project more achievable, just visit your local store and ask a member of staff for details or visit diy.com

Our returns policy

Please keep your receipt for anything you buy from us. It will ensure we can help you, if you need to bring something back.

Terms and conditions

If you return a product unused, with the original receipt within 45 days of purchase (or delivery where applicable) we will exchange the product or issue a refund based on the original method of payment. For purchases made by debit/credit card, the same card must be used to process the refund. B&Q customer sales forms are an acceptable form of receipt.

Products that have been cut, made to measure or mixed to your requirements cannot be exchanged or refunded.

We reserve the right to refuse a return or to require proof of identity.

YOUR CONSUMER RIGHTS ARE NOT AFFECTED

If the product you purchase is faulty, or not as described, we may offer an exchange, refund or repair as appropriate, in accordance with your consumer rights.

You can return your items by:

In the first instance, **return via Home Delivery or www.diy.com**

■ contact us on 0800 3895516.

Lines are open 8am – 8pm
Monday to Saturday and
10am – 4pm Sunday.
If calling from the Republic of Ireland please call 1800 946327

■ e-mail us at home.delivery@b-and-q.co.uk

■ write to us at B&Q Customer Services,
Torrance House, Erskine Harbour, Erskine,
Renfrewshire PA8 6PA

Alternatively, return the product to your local B&Q store

■ you will need to take the product, your receipt/sales advice and the debit/credit card you used for payment with you
